Understanding Mentally Disordered Offenders Anthony Columbo, 2019-05-20 First published in 1997 this volume's purpose is to understand and clarify the nature of implicit theories currently held about the mentally disordered offender by respondents who represent a range of agencies the general lay population Criminal Justice Mental Health and Social Services The significance of this research rests on the premise that a greater understanding of professional and lay perspectives

towards the mentally ill offender will help elucidate conflicting assumptions between agencies which by their very nature may be seriously disrupting the effective implementation of a number of key criminological and clinical policy initiatives involving the care and management of the mentally ill In particular consideration is given to the impact such ideological differences may have with regard to the establishment of community based psychiatric care programmes the policy of diverting mentally ill offenders away from the Criminal Justice System and into care by Health and Social Services and the need to strengthen inter agency co operation

**Working with the Mentally Disordered Offender in the Community** Phillip J. Vaughan, Douglas Badger, 2013-12-20 In the past forensic psychiatry has been a sub speciality of general psychiatry without its own separate identity. However since the mid 1980s there has been a growing interest in the application of community care principles to mentally disordered offenders. A new set of attitudes have developed which have enabled the mentally disordered offender to emerge from relative institutional obscurity to a much higher profile in the community. Although numerically small in relation to the general psychiatric population forensic patients tend to attract the public's attention by virtue of their greater propensity for troublesome behaviour. Such a group needs expert community support in order to maintain an acceptable public face. Unfortunately these developments have outstripped the creation of training opportunities for community staff charged with their support and supervision. Most community practitioners have had to learn on the job with inadequate support and supervision from senior staff who often have less direct experience of working with this client group than themselves. Just such a situation prompted the authors in 1990 to establish a module on Working with Mentally Disordered Offenders in the Community as part of an MA in Social Work at the University of Reading. As the course developed it became clear that the topic and content had equal application to other community professionals working in the field.

*Management of the Mentally Disordered Offender in Prisons* Geoffrey Neil Conacher, 1996 Management of mentally disordered offenders (MDOs) is a major challenge for the clinician because they have multiple problems and diagnoses and the cost of a mistake can be very high. The author, former director of psychiatric services at the Regional Treatment Centre in Ontario, traces the MDO management process from initial assessment through secure stabilization to preparation for release and subsequent community supervision. He outlines the difficulties of managing a population of serious offenders and highlights elements of treatment that are essential if the MDO is to be reintegrated into the community.

**Clinical Approaches to the Mentally Disordered Offender** Kevin Howells, Clive R. Hollin, 1993-09-28 The papers in this book discuss the legal issues and research evidence which support treatment of mentally disordered offenders. It focuses particularly on three areas of mental disorder: mental illness, mental impairment, and psychopathy, and illustrates the particular problems faced by clinicians and researchers in working with these types of offenders.

**The Mentally Disordered Offender** Katia R. Herbst, John Charles Gunn, 1991 This assessment outlines the negative aspects of current procedures for dealing with mentally disordered criminals and suggests feasible solutions to many problems. Topics covered include the criminal process, the courts, prison, hospital, and community management.

*Management of the Mentally Disordered Offender in Prisons* Geoffrey Neil Conacher, 1996-06-18 Drawing on extensive

case studies and his experience as director of psychiatric services at the Regional Treatment Centre in Ontario Geoffrey Conacher traces the MDO management process from initial assessment through secure stabilization to preparation for release and subsequent community supervision He outlines the difficulties of managing a population of serious offenders and highlights elements of treatment that are essential if the MDO is to be reintegrated into the community Conacher also considers dangerousness issues of treatment and forensic aspects of mental disorder as well as psychiatric concerns that are particular to the prison context such as ethical issues predatory sexual behaviour self mutilation suicide the inadequate offender and the predictably dangerous mentally disordered offender Management of the Mentally Disordered Offender in Prisons makes an important addition to existing psychiatric literature by bringing to the fore a neglected area of tremendous social concern

Protecting the Public? Tessa Boyd-Caine, 2012

The separation of powers and independent judicial decision making are generally accepted as hallmarks of the rule of law in democratic societies Yet the exercise of executive discretion remains an important aspect of criminal justice in many areas Protecting the Public explores the tension between the rights of individuals detained under criminal and

mental health law and the responsibility for public protection in the little known world of executive discretion over mentally disordered offenders It is based on extensive and unique empirical research conducted at the UK Home Office with legal and clinical practitioners with civil society organisations and by reference to comparative jurisdictions Central questions considered include executive judicial and tribunal decision making mental health and criminal law reform regarding serious or high risk offenders the influence of human rights law on policy and practice and the role of civil society particularly victim interest groups in public policy Through its analysis of decisions to release high risk offenders this book goes to the heart of the public protection agenda examining how the public is constructed and what protection is provided by the exercise of executive discretion This book will be of interest to academic and other researchers students policy makers law reformers commentators and anyone interested in the field of criminal justice mental health law and public policy **Mentally**

**Disordered Offenders** John Monahan, Henry J. Steadman, 2013-11-11 In its narrowest sense mentally disordered offender refers to the approximately twenty thousand persons per year in the United States who are institutionalized as not guilty by reason of insanity incompetent to stand trial and mentally disordered sex offenders as well as those prisoners transferred to mental hospitals The real importance of mentally disordered offenders however may not lie in this figure Rather it may reside in the symbolic role that mentally disordered offenders play for the rest of the legal system The 3 140 persons residing in state institutions on an average day in 1978 as not guilty by reason of insanity see Chapter 4 for example are surely worthy of concern in their own right But they represent only 1% of the 307 276 persons residing in state and federal prisons in the same period U S Dept of Justice 1981 From a purely numeric point of view the insanity defense truly is much ado about little Pasewark Pasewark 1982 The central importance of understanding these persons however is that they serve a symbolic function in justifying the imprisonment of the other 99% The insanity defense as Stone 1975 has noted is the exception that proves the rule By exculpating a relatively few people from being criminally responsible for their behavior the law inculcates all other law violators as liable for social sanction **Disposition of Cases Released from the Mentally Disordered**

**Offender Program by the Gibson Decision** ,1990 *The Mentally Disordered Offender* Seymour L. Halleck, 1987
