The Mexican Hit:

Wars of the Mexican Gulf Benjamin J Swenson, 2024-12-31 In turbulent 1830s Mexico Texas and Yucatan declared independence leading to the U.S. Mexican War and European intrigue. One nation in turmoil another seeking aggrandizement smaller states jostling for security mercenary expeditions and political and racial armed struggles breaking out. In 1835 the northern Mexican state of Texas declared its independence and won it after defeating General Santa Anna's forces at the Battle of San Jacinto. A few years later as a larger and looming war with the United States approached the gulf state of Yucatan did the same by claiming itself a separate republic. For Mexican authorities the existence of breakaway republics on its periphery represented an existential crisis and an opportunity for U.S. and European interests. For many on both sides the U.S. Mexican war officially beginning in 1846 after the Republic of Texas was annexed to the United States was merely a continuation of a conflict that began ten years earlier. Adding to the turmoil the uprising in Yucatan by indigenous Maya against a criollo minority in 1847 and the contemplated military intervention and annexation of that republic by American leadership towards the end of the war sheds light on a conflict with ethnic national and international dimensions. In his second transnational history of the Mexican American War historian Benjamin J Swenson examines the breakaway republics of Texas and Yucatan and demonstrates how the war was not only a manifestation of American expansionism and internal Mexican disunion but a geostrategic contest involving European states seeking to curtail a nascent imperial power's dominance in North America.

Impact of Organized Crime on Murder of Law Enforcement Personnel at the U.S.-Mexican Border Sara Schatz, 2014-07-14 This brief fills a gap in the studies of organized crime in Mexico. Kan 2012. Ros 2011. Dell 2011 by documenting and mapping the post 2008 assassination of Mexican border police chiefs. It traces out a systematic of law enforcement assassination in Northern Tier Mexico showing how the selective often sequential hits by cartels on chiefs in border towns and along key drug trafficking corridors has proven an effective strategy by organized crime elements to serve several goals 1 to retaliate for federal state and local prosecution 2 to try and neutralize police chiefs 3 to achieve intermittent local governance and or to seed corrupt police chiefs at the municipal level and 4 to reduce local governmental capacity to obtain greater freedom for movement of goods. It is argued that the tactical advantage of organized crime elements gives them relatively easy physical access to law enforcement targets and thus is thus one prime element facilitating the use of assassination as a strategy. U.S. and Mexican legal political and judicial institutions have not been able to adequately restrict opportunity for law enforcement assassinations. The inability to reduce access to weapons and officials to increase security for police personnel to reduce corruption and punish offenders sets the stage for the assassination of local law enforcement. Yet it is the goals of organized crime elements to clear drug smuggling routes and to try and gain more pliant governance at the municipal level that ultimately motivate such killings.
