The Railway Experience Paul Atterbury,2017-02-23

Britain is a country in love with its railway past Nowhere else do the workhorses of the age of steam exert such a pull in no other country is the nostalgia for the days when the railways extended to every corner of the kingdom so strong However the history of station buildings and signal boxes steam and diesel engines goods and postal services main lines and branch lines is only part of the story told here As a cherished part of Britain s heritage it is the impact of the railways on a human level that has truly captured our imagination In more than 50 photographs many of which are previously unpublished Paul Atterbury reveals the people who ran maintained and used them the people for whom the railways were a way of life [Cambridge Station](#) Rob Shorland-Ball,2017-11-30 Why build a Railway to Cambridge This is the first substantive illustrated book about Cambridge Station which explores the opening of the station in 1845 the four principal railway companies which all worked to and from the station in a tangle of mutual inconvenience the extensive goods traffic which was handled in the several goods yard around the station and the way the Station operated from early beginnings to what Abellio East Anglia and Network Rail offer today Cambridge Station is renowned for having one of the longest single platforms in the UK served by Up and Down trains Ingenious trackwork and extensive signalling could satisfy passengers who were told at the central booking hall entrance Turn left for Kings Lynn or right for London The book contains several pictures never before published showing how the Eastern Counties and then the Great Eastern Railway Companies contrived Cambridge Station and the Engine Sheds Goods Yards Signal Boxes and extensive sidings to serve East Anglia And it tells people stories too because the author worked on the station in the 1950s and 1960s and knows Cambridge and East Anglia well He is a geographer and writes with knowledge wisdom and humour [The Great Eastern Railway, The Late 19th and Early 20th Century, 1862-1924](#) Charles Phillips,2024-08-30 This is the second volume of the history of the Great Eastern Railway from 1811 to 1924 This volume covers from 1862 when the Great Eastern Railway was formed to 1924 when with the absorption of the Colne Valley and Halstead Railway and the Mid Suffolk Light Railway into the LNER the cessation of locomotive building at Stratford and the departure of the Company s last General Manager Sidney Parnwell the GER could finally be said to exist The history covers many things including the building and the subsequent expansion of Liverpool Street station and the development of the extensive suburban system The Company s attempts to gain direct access to the northern coal fields which resulted in the formation of the Great Northern and Great Eastern Joint Line is mentioned as is the abortive proposed working union with the Great Northern and the Great Central railways Relations with London Tilbury and Southend Railway including the battle for the Southend traffic from 1911 are dealt with as is the effect of Midland Railway takeover of that Railway How the GER dealt with the threat of electric tube railways at the turn of the 20th century receives attention as do the abortive proposals in 1918 for the electrification of the Company s suburban services [The Official Guide to the Great Eastern Railway Great](#)
