women and their use of language in gaining and maintaining political power It casts a wider net in terms of discussing women s efforts to assert and preserve their roles of authority particularly when their audiences may perceive their authority as illegitimate due to gender Chapters dedicated to Elizabeth II and Sheikha Moza Bint Nasser discuss the more traditional ways in which women leaders use language to construct political power Other chapters focus on women who serve as political activists either individually or as part of a group including Aasma Mahfouz of the Egyptian Revolution of 2011 and the women who help direct United Nations policy through their speeches in the General Assembly Global Women Leaders will appeal to scholars of political communication and international rhetoric

**Doing Research on Women's Communication** Kathryn Carter,Carole Spitzack,1989 A critique of conventional approaches to communication research the authors argue that the impact of gender on research practices has been ignored By exploring gender issues and conducting applied research in the areas of mass and interpersonal communication therapeutic interaction and rhetoric they critique traditional scholarship and offer novel alternatives The authors take intact theories and methods and show their applicability or lack thereof to the study of women s communication The adaptations allow researchers to conduct more accurate sensitive and theoretically sound analyses of womens communication than those promoted by traditional paradigms

**Talking Difference** Mary Crawford,1995-08-11 Talking Difference provides an excellent critical review of a good selection of the research in language and gender published over the last 20 years including a substantial amount from the area of psychology I found this an exhilarating book written with energy and wit Crawford maintains a consistently critical approach identifying contradictions and ambiguities in popular theories of gender difference and exposing conceptual and methodological weaknesses in language and gender research The volume is well structured and readable it will prove very valuable in undergraduate and beginning postgraduate courses in language and gender or in women s studies as well as

offering much which should interest students of communication studies and social psychology Language in Society The alternative to the essentialist approach Crawford proposes is the social constructionist view Crawford's analysis of conversational humor is particularly eye opening Talking Difference is not only a great read but also an acute criticism of current research and a very important contribution to feminist theory Journal of Pragmatics *Our Day*, 1888
