Text Speech and Dialogue Conference TSD which originated in 1998 is now starting its second decade So far almost 900 authors from 45 countries have contributed to the proceedings TSD constitutes a recognized platform for the presentation and discussion of state of the art technology and recent achievements in the field of natural language processing It has become an interdisciplinary forum interweaving the themes of speech technology and language processing The conference attracts researchers not only from Central and Eastern Europe but also from other parts of the world Indeed one of its goals has always been to bring together NLP researchers with different interests from different parts of the world and to promote their mutual cooperation One of the ambitions of the conference is as its title says not only to deal with dialogue systems as such but also to contribute to improving dialogue between researchers in the two areas of NLP i.e. between text and speech people In our view the TSD conference was successful in this respect in 2008 as well This volume contains the proceedings of the 11th TSD conference held in Brno Czech Republic in September 2008 Following the review process 79 papers were accepted out of 173 submitted an acceptance rate of 45.7% Theoretical Approaches to Dialogue Analysis Lawrence N. Berlin, 2011-03-01 In April 2004 a group of international scholars convened in Chicago Illinois for a workshop of the International Association for Dialogue Analysis The selected papers from the workshop which are included in this volume represent a breadth of theoretical and methodological perspectives Together the variety of perspectives adds to a deeper understanding of the complex nature of dialogic interaction The volume is intended for scholars and students in the field offering a view of dialogue analysis from its more traditional origins to contemporary trends in discourse studies
