theoretical framework and analytical tool The texts under study are segments from five films by Woody Allen and the analysed interactions take place between male and female interactants which allows further examination of on screen interactions via a gender lens The book aims to bridge the gap between the disciplines of applied linguistics and cinema studies and offer linguistic insights into performed interactions from a multimodal point of view It will be equally relevant to linguists who are interested in how verbal and non verbal language is used in cinematic discourse as well as to film workers especially actors directors and screenwriters

Through a Lens Darkly Marjorie Hewitt Suchocki, 2015-01-16 What if we ask questions concerning sin and redemption outside of the religious or theological milieu After all sin functions something like religious code language for that which is problematic in human existence But all humans deal with our fragility and our penchant for harming ourselves or others and all humans seek to resolve these issues Might the religious community learn from those outside our gates Accordingly in this book a theologian seeks to gain insight from the way seven outstanding filmmakers of our time set up the problems of human existence and seek to resolve them over a series of their films Explore with her how Clint Eastwood Woody Allen Spike Lee the Coen brothers John Sayles Ang Lee and Terrence Malick define human problems and explore resolutions mark the overlap with Christianity but more importantly ponder the contrasts You ll never watch films the same way again
