Athanasopulos,2017-07-06 For many years Greece and Turkey have been involved in aggressive rivalry over large areas of the Aegean Sea as well as Cyprus Their conflicts endanger the peace between these two NATO allies and have even brought the two nations to the brink of war but no agreement has been reached despite their mutual assistance in the aftermath of the earthquakes suffered by both countries in the summer of 1999 This work provides an in depth discussion of how the conflicts began the matter of Cyprus and international law disputes and near war situations over the Aegean the dynamics of and prospects for a new Greek Turkish partnership and current developments in disputes and relations The Macedonian Slavs in the Greek Civil War, 1944-1949 James Horncastle,2019-06-03 In this study of Macedonian Slavs in the Greek Civil War the author examines how their participation in the conflict and the attempts by other groups to manipulate them gave rise to modern issues that continue to affect politics in the region today The Macedonian Question has confounded academics politicians and the people of the Balkans since the nineteenth century While the countries have resolved the territorial component of the Macedonian Question the critical and confusing question surrounding the ethnic and linguistic identity of the people of the region continues to be the source of international debate Part of the reason for this confusion is because the history of the Macedonian Question is shrouded in nationalist polemics The role of the Macedonian Slavs involvement in the Greek Civil War is particularly contentious and embedded in nationalist polemics which has impacted academic inquiry This book argues that the preponderance of Macedonian Slavs within the communist forces during the Greek Civil War influenced the actions of all the major actors involved and is a significant factor in shaping the modern Macedonian national identity

limited to writing about Asian American characters or contexts *Racial Asymmetries* specifically examines the importance of first person narration in Asian American fiction published in the posttrace era focusing on those cultural productions in which the author's ethnoracial makeup does not directly overlap with that of the storytelling perspective Through rigorous analysis of novels and short fiction such as Sesshu Foster's *Atomik Aztex* Sabina Murray's *A Carnivore's Inquiry* and Sigrid Nunez's *The Last of Her Kind* Sohn reveals how the construction of narrative perspective allows the Asian American writer a flexible aesthetic canvas upon which to engage issues of oppression and inequity power and subjectivity and the complicated construction of racial identity Speaking to concerns running through postcolonial studies and American literature at large *Racial Asymmetries* employs an interdisciplinary approach to reveal the unbounded nature of fictional worlds

Jeffery, 2000-04-12 *Ambiguous Commitments and Uncertain Policies* offers a reassessment of the Truman Doctrine In this insightful thorough and carefully documented study Judith Jeffery tests the truth of the claim that America's peacetime intervention in Greece was a model on which to base other such ventures In March 1947 President Truman launched a program of U S aid to Greece Truman saw in Greece which had been shattered by World War II not only a dire situation needing humanitarian aid but also an opportunity to assert American authority in this early period of the Cold War civil war waged by the Communist backed guerrilla movement against the government was threatening to further destroy the country The president and his administration thus dispatched American troops with the directive to destroy the Communist forces The defeat of the Communists in 1949 was hailed as a great U S military achievement Did this achievement come at the expense of the Truman Doctrine which made explicit that the first priority of President Truman and his administration in defeating communism was to improve the standard of living in Greece How do claims about the success of the aid program measure up against the original intentions of the Administration in mid 1947 and against the program's real outcome at the beginning of the 1950s What was the real story behind the Greek Communist defeat Jeffery's cogent analysis of events from
