Tao Of Gender:

The Tao of Gender Tarynn M. Witten, 2002-04-25 The concept of gender is one that is static for many and malleable for some. Many mistakenly interchange gender with sexuality. Some argue that it is cultural environmental while others say that it is genetic. What is gender? The answer continues to elude Tarynn Whitten's introspective work. seeks to explore the mystery of gender identity through an integration of various principles of Taoism. The Tao of Gender grew out of a personal need to provide peaceful reading for those who seek The Way on their journey through life in a world where transgenderism and transsexuality are all too often misunderstood. The author hopes to help those on this journey to find balance by tapping into their infinite capacity for resourcefulness and wisdom within. What readers are saying: This book is a gift of inspiration and insight for those who experience gender fluidity or want to explore the nature of trans genderism. Tarynn artfully weaves the personal and the philosophical creating a tapestry of gender and Taoism with threads of self discovery and renewal. Randi Ettner Ph D author of *Gender Loving Care* and *Confessions of a Gender Defender*

The Tao of Women Pamela K.

Metz, Jacqueline L. Tobin, 1995-06 For centuries women have remained quiet suppressed by society. Yet in their silence a singing can be heard celebrating their truths. In *The Tao of Women* female voices speak out. Finally the wisdom of Taoist philosophy is linked with the deep and mysterious wisdom of women. *The Tao of Women* captures and presents the power and wisdom generated by centuries of women's lives with the hope that this wisdom will not be lost. These brief and poignant meditations amplify the voices of our grandmothers and their mothers before them. They illuminate the connections over time and space and culture allowing us to understand the women who came before and the daughters who will follow. In 1950 a secret language was discovered near Hunan Province, China. It was not until 1982 that anyone collected and translated this secret women's script. Known as Nu Shu, this ancient language was developed and used by women to communicate with each other when their society would not allow them to learn to read and write. For the first time in America 81 original Nu Shu illustrations and their translations can be seen in *The Tao of Women*

Christian Women in Chinese Society Wai Ching

Angela Wong, Patricia P. K. Chiu, 2018-07-17 Christian Women in Chinese Society: The Anglican Story expands on the long standing debates about whether Christianity is a collaborator in or a liberating force against the oppressive patriarchal culture for women in Asia. Women have played an important role in the history of Chinese Christianity but their contributions have yet to receive due recognition partly because of the complexities arising out of the historical tension between Western imperialism and Chinese patriarchy. Single women missionaries and missionary spouses in the nineteenth century set the early examples of what women could do to spread the Gospel yet they might not have intended to instill the same free spirit into their Chinese converts. The education provided to Chinese women by missionaries was expected to turn them into good wives and mothers but knowledge empowered the students allowing them to become full participants not only in the Church but also in the wider society. Together the Western female missionaries and the Chinese women whom they trained explored

their newfound freedom and tried out their roles with the help of each other. These developments culminated in the ordination of Florence Li Tim Oi to priesthood in 1944, a singular event that fundamentally changed the history of the Anglican Communion. At the heart of this collection lies the rich experience of those women both Chinese and Western who devoted their lives to the propagation of Anglicanism across different regions of mainland China and Hong Kong. Contributors make the most of the sources to reconstruct their voices and present sympathetic accounts of these remarkable women's achievements. This inspiring volume restores women converts and missionaries to their central place in the history of Chinese Christianity. Its critical re-evaluation of the contribution of women to the Anglican church in China reconfigures our understanding of mission and of the construct of Chinese womanhood. Chlo Starr, Yale University. This engaging volume provides a rounded and nuanced picture of the role of women in the history of the Anglican church in China by approaching it from multiple perspectives. A must read for those interested in Asian Christianity or the role of women in the history of the church. Judith Berling, Graduate Theological Union. This wide ranging collection offers a re-appraisal of the role of women in Anglican mission in China. Careful and detailed scholarship allows women's often painful stories to be told afresh. Like all good collections this book serves to challenge assumptions, stimulate research and provoke further questions.

Mark D Chapman, University of Oxford. *Dance, Identity and Integration*, 2004. Buddhism in the Sung. Daniel A. Getz, Peter N. Gregory, 2002-10-31. New paperback edition. The Sung Dynasty 960-1279 has long been recognized as a major watershed in Chinese history. Although there are recent major monographs on Sung society, government, literature, Confucian thought and popular religion, the contribution of Buddhism to Sung social and cultural life has been all but ignored. Indeed, the study of Buddhism during the Sung has lagged behind that of other periods of Chinese history. One reason for the neglect of this important aspect of Sung society is undoubtedly the tenacity of the view that the Sung marked the beginning of an inexorable decline of Buddhism in China that extended down through the remainder of the imperial era. As this book attests, however, new research suggests that far from signaling a decline, the Sung was a period of great efflorescence in Buddhism. This volume is the first extended scholarly treatment of Buddhism in the Sung to be published in a Western language. It focuses largely on elite figures, elite traditions and interactions among Buddhists and literati, although some of the book's essays touch on ways in which elite traditions both responded to and helped shape more popular forms of lay practice and piety. All of the chapters in one way or another deal with the two most important elite traditions within Sung Buddhism: Ch'an and T'ien-tai. Whereas most previous discussions of Buddhism in the Sung have tended to concentrate on Ch'an, the present volume is notable for giving T'ien-tai its due. By presenting a broader and more contextualized picture of these two traditions as they developed in the Sung, this work amply reveals the vitality of Buddhism in the Sung as well as its embeddedness in the social and intellectual life of the time.

Values Education, 1981. **Gender Politics in Modern China**. Tani E. Barlow, 1993.

Through the lens of modern Chinese literature, *Gender Politics in Modern China* explores the relationship between gender

and modernity notions of the feminine and masculine and shifting arguments for gender equality in China. Ranging from interviews with contemporary writers to historical accounts of gendered writing in Taiwan and semi colonial China to close feminist readings of individual authors these essays confront the degree to which textual stategies construct notions of gender. Among the specific themes discussed are how femininity is produced in texts by allocating women to domestic space the extent to which textual production lies at the base of a changing historically specific code of the feminine the extent to which women in modern Chinese societies are products of literary canons the ways in which the historical processes of gendering have operated in Chinese modernity vis vis modernity in the West the representation of feminists as avengers and as westernized women and the meager recognition of feminism as a serious intellectual current and a large body of theory. Originally published as a special issue of Modern Chinese Literature Spring Fall 1988 this expanded book represents some of the most compelling new work in post Mao feminist scholarship and will appeal to all those concerned with understanding a revitalized feminism in the Chinese context. Women and Politics in Thailand

Kazuki Iwanaga, 2008 This edited volume including contributions from some of the leading scholars in the field addresses the challenges obstacles and opportunities for increased women s political representation in Thailand. Will Thai politics be different with an increase in the number of women politicians? In seeking to address these and related issues the analysis brings together a complex interplay of factors such as traditional Thai views of gender and politics the national and local political context of the new Thai constitution of 1997 and recent experiences of selected women politicians in the legislative and executive branches of Thai government
