Talking Music:

Talking Music Holger Petersen, 2011-09-30 Talking Music is a collection of nineteen of Holger Petersen's in depth radio interviews with artists the pioneering men and women who created the blues and roots sounds that have influenced the course of popular culture and music in North America Many of his interview subjects are no longer with us their stories need to be told The book is divided into four collections of interviews British Blues Revival Delta and Memphis Blues Artists Who Helped Build Stony Plain and Bonus Tracks Each interview is preceded by informative background material on the artist Petersen's own stories of their meetings and photographs Perspectives on German Popular Music Michael

Ahlers, Christoph Jacke, 2016-11-25 In this book native popular musicologists focus on their own popular music cultures from Germany Austria and Switzerland for the first time from subcultural to mainstream phenomena from the 1950s to contemporary acts Starting with an introduction and two chapters on the histories of German popular music and its study the volume then concentrates on focused detailed and yet concise close readings from different perspectives including particular historical East and West German perspectives mostly focusing on the music and its protagonists Moreover these analyses deal with very original specific genres such as Schlager and Krautrock as well as transcultural genres such as Punk or Hip Hop There are additional chapters on characteristically German developments within music media journalism and the music industry The book will contribute to a better understanding of German Austrian and Swiss popular music and will interconnect international and especially Anglo American studies with German approaches The book as a consequence will show close connections between global and local popular music cultures and diverse traditions of study **Assistive**

Technology for Visually Impaired and Blind People Marion Hersch, Michael A Johnson, 2010-05-12 Equal accessibility to public places and services is now required by law in many countries For the vision impaired specialised technology often can provide a fuller enjoyment of the facilities of society from large scale meetings and public entertainments to reading a book or making music This volume explores the engineering and design principles and techniques used in assistive technology for blind and vision impaired people This book maintains the currency of knowledge for engineers and health workers who develop devices and services for people with sight loss and is an excellent source of reference for students of assistive technology and rehabilitation
