## **Tantra In Practice:**

**Tantra in Practice** David Gordon White, 2000 Tantra in Practice is the eighth volume of Princeton Readings in Religions and the first substantial anthology of Tantric works ever to appear in English. The thirty-nine contributors drawn from around the world are leading scholars of Tantra. Each contributor has provided a translation of a key work in most cases translated here for the first time. Each chapter in the volume begins with an introduction in which the translator discusses the history and influence of the work identifying points of particular difficulty or interest. David White has provided a general introduction to the volume that serves as an ideal guide to the riches contained between the covers of this book. He has organized the volume thematically providing fascinating juxtapositions of works from different regions, periods, and traditions. Two additional tables of contents are provided organizing the works by tradition and by country of origin. The range of works represented here is remarkable, spanning the continent of Asia and the traditions of Hinduism, Buddhism, Jainism, and Islam over more than a millennium. With the publication of this volume, the long-disparaged and neglected Tantric traditions of Asia receive the attention they so rightly deserve. This is a groundbreaking work.

**Tantra Learning Framework** Chaitanya Prabhu Hakkaladaddi, 2024-03-07 Strange as it may seem, even the most obvious things aren't always so clear. Take oranges, for example: as a kid, I had no idea why we called that bright fruit orange when they always looked more yellow. The same goes for Turkey: the country versus Turkey the bird. You'd think it would be simple, but it took me a while. Similarly, although I've been practicing Tantra for over 30 years and designing learning for about 20, I haven't connected the dots between the Tantric Tattvas psychological system and popular instructional design theories until recently. It was like a lightbulb went off in my head. That's why I'm so excited to tell you about my new Tantra Learning Framework. This instructional design method is based on the 36 Tattvas from Kashmiri Shaivism. I mapped how the tattvas and five tantric systems of reality relate to classic ID models, theories, and frameworks. The goal is for this framework to be a real game changer in creating engaging learning experiences and shortening the time it takes to develop e-learning projects. I can't wait to see how you all put it to use.

**Preparing for Tantra** Rob Preece, 2011-09-16 The preliminary practices of Tantra aren't a hurdle to be gotten through in order to get somewhere else; they're an extraordinarily rich collection of practices which have much to offer as a means of cultivating and maturing the practitioner's psychological ground. They can enable experiences to unfold, and they can clear the way when there seem to be problems or hindrances. Practitioners are struggling with. In *Preparing for Tantra*, Preece draws on his experience as a Tantric Buddhist practitioner, meditation teacher, and psychotherapist to explain how to make the preliminary practices psychologically meaningful and spiritually transformative. He examines each of the practices with an eye to revealing how they may be used to heal and transform psychological trauma and offers practical suggestions for integrating them into daily life, as well as ensuring that practitioners are prepared psychologically, emotionally, and energetically to start out safely on the tantric path. *Preparing for Tantra* is an accessible guidebook for engaging in ngondro.
