Target Ploesti View From A Bombsight:

Target Ploesti Leroy W. Newby, 1983 *Die Crivitzer Synagoge* ,2005 **Air University Review** ,1984-07
Military Review ,1984 Professional Journal of the United States Army ,1984 Flak Edward B. Westermann,2001 Air raid sirens wail searchlight beams flash across the sky and the night is aflame with tracer fire and aerial explosions as Allied bombers and German anti aircraft units duel in the thundering darkness Such cinematic scenes played out with increasing frequency as World War II ground to a close were more than mere stock material for movie melodramas As Edward Westermann reveals they point to a key but largely unappreciated aspect of the German war effort that has yet to get its full due Long the neglected stepchild in studies of World War II air campaigns German flak or anti aircraft units have been frequently dismissed by American British and German historians and by veterans of the European air war as ineffective weapons that wasted valuable materiel and personnel resources desperately needed elsewhere by the Third Reich Westermann emphatically disagrees with that view and makes a convincing case for the significant contributions made by the entire range of German anti aircraft defenses During the Allied air campaigns against the Third Reich well over a million tons of bombs were dropped upon the German homeland killing nearly 300 000 civilians wounding another 780 000 and destroying more than 3 500 000 industrial and residential structures Not surprisingly that aerial Armageddon has inspired countless studies of both the victorious Allied bombing offensive and the ultimately doomed Luftwaffe defense of its own skies By contrast flak units have virtually been ignored despite the fact that they employed more than a million men and women were responsible for more than half of all Allied aircraft losses forced Allied bombers to fly far above high accuracy altitudes and thus allowed Germany to hold out far longer than it might have otherwise Westermann's definitive study sheds new light on every facet of the development and organization of this vital defense arm including *Bombs, Cities, and Civilians* Conrad C. Crane,1993 As the might and capabilities of American airpower have grown during the last 60 years so has the controversy about its use in the intentional and indiscriminate wartime bombardment of civilians In *Bombs Cities and Civilians* Conrad Crane maintains that for the most part American airmen in World War II remained committed to precision bombing doctrine Instead of attacking densely populated urban areas simply to erode civilian morale Army Air Forces adhered to a policy that emphasised targeting key industrial and military sites He demonstrates that while the British Germans and Japanese routinely conducted indiscriminate aerial bombardment of enemy cities American airmen consistently stayed with daylight raids against carefully selected targets especially in Europe Daytime precision missions were usually far more dangerous than night area attacks but such Army Air Forces tactics increased bombing efficiency and also reduced the risk of civilian casualties Target Ploesti ,1986-06-01 Computer Gaming World ,1987 *The War in the Air, 1914-1994* Alan Stephens,2001 This book contains the proceedings of a conference held by the Royal Australian Air Force RAAF in Canberra in 1994 Since its publication by the RAAF's Air Power Studies Center in that year the book has become a

widely used reference at universities military academies and other educational institutions around the world The application of aerospace power has seen significant developments since 1994 most notably through American led operations in Central Europe and continuing technological advances with weapons uninhabited vehicles space based systems and information systems But notwithstanding those developments and the passing of six years the value of this anthology of airpower in the twentieth century seems undiminished

Smith,1984 **Refuge from the Reich** Stephen Tanner,2000 American Airmen and Switzerland During World War II Air Force Magazine ,1994 **The Second World War** ,1985 *Shadow* Neil Hunter Raiford,2004 This is the poignant and exciting story of a statistical anomaly a B 24 bomber crew that completed 50 combat missions in World War II This crew was part of the famous 450th Bomb Group which was nicknamed the Cottontails because of their white rudders As part of the 15th Army Air Force they flew strategic bombing missions out of Manduria Italy in the heel of the boot and struck strategic targets which were out of the reach of the 8th Army Air Force bases in England The group lost 1 505 airmen in only a year and a half the equivalent of losing their effective flying strength three times over The book s title comes from the crew s bomber *Shadow* which in turn was named for the pilot s black cocker spaniel that flew with them on training missions Based on interviews with the surviving crewmembers and their families as well as extant archival source material the book details the childhood training and post war life of each of its 13 principal characters Chapter One is a discussion of each man s boyhood years and Chapter Two provides details of the training that each received In Chapter Three the original crew of ten Crew 4 N 33 was formed in Clovis New Mexico An assignment for training in Clovis and in B 24s meant that the crew had been designated for heavy bombardment Chapter Four includes a description of the four main objectives for the crew one of which was to participate in POINTBLANK the Combined Bomber Offensive which called for the destruction of German fighter aircraft plants ball bearing plants oil refineries rubber plants munitions factories sub pens and bases Details of the structural components of most missions are provided in Chapter Five The crew completes its first missions in Chapter Six In Chapter Seven *Shadow* completes its last after taking enemy fire and Chapter Eight introduces a new plane *Sleepy Time Gal* The book s Epilogue contains information about the post war lives of the crew
