General Secretariat, 2000 This booklet prepared by the General Secretariat of the Council explains the unique role of the European Council in European Union decision making The European Council brings together the Heads of State or Government of the 15 Member States of the European Union and the president of the European Commission The booklet describes the European Council's role in coordinating European policies

The European Council and European Governance François Foret, Yann-Sven Rittelmeyer, 2013-12-04 In recent years the failure of the constitutional process the difficult ratification and implementation of the Lisbon Treaty as well as the several crises affecting Europe have revitalized the debate on the nature of the European polity and the balance of powers in Brussels This book explains the redistribution of power in the post Lisbon EU with a focus on the European Council Reform of institutions and the creation of new political functions at the top of the European Union have raised fresh questions about leadership and accountability This book argues that the European Union exhibits a political order with hierarchies mechanisms of domination and legitimating narratives As such it can be understood by analysing what happens at its summit Taking the European Council as the nexus of European political governance contributors consider council and rotating presidencies co operation rivalry and opposition The book combines approaches through events processes and political structures issues and the biographical trajectories of actors and explores how the founding compromise of European integration between sovereignty and supranationality is affected by the evolving nature of this new European political model which aims to combine cooperation and integration The European Council and European Governance will be of strong interest to students and scholars of European studies political science political sociology public policy and international relations The European Council Jan Werts, T.M.C. Asser Instituut, 1992 This work traces the development of the European decision making process in the European Community in minute detail from the Summit Meeting in Paris 1957 to the most recent European Council meeting Special account is taken of the momentous and at times controversial changes brought about in this process in particular by the Single European Act As well as consulting numerous well known and respected sources on European affairs the much travelled author draws on his personal experience as a journalist presenting new and

original conclusions on for example the legal status of the European Council's communiques and decisions. The issues touched upon afford much food for thought and are all the more stimulating when seen against the background of the internal market heralded for 1993 and the ever changing events in Eastern Europe. Following a description of the roots of the European Council the author deals with both the organizational rules and functioning of the European Council emphasizing the importance of European Political Cooperation both the legal nature and form of the European Council and its relations with the Community institutions both the meetings and their results both the progress made in decision making over the years both the future of the European Council. The book is completed with relevant documentation a comprehensive bibliography a table of cases of the Court of Justice of the EC a table of articles EEC Treaty and SEA a subject index and an index of names.

EU Council Presidencies in Times of Crises Ramona Coman, Olivier Costa, Vivien Sierens, 2024-03-24 The Council of the EU is a powerful institution whose centrality has been challenged by the Treaty of Lisbon. More than ten years after this major institutional revision this book examines its role within the EU political regime and its interactions with other institutions. It explores how the Council Presidency has navigated major crises over the past decade and addressed internal challenges. The various chapters discuss key timely questions: How has the relationship between the Council and the European Council evolved over time? To what extent have the recent crises reshaped the relationship between the Council and the European Parliament as well as its interactions with the Commission? Is the Council Presidency still a powerful mediator? What are its internal challenges? What are the prospects for the rotating presidency system?

The European Council, 2022 The European Council is the EU institution that defines the general direction and priorities of the European Union. It consists of the heads of state or government of the 27 EU member states, the President of the European Council and the President of the European Commission. The European Council represents the highest level of political cooperation between the member states and meets at least once every two to three months in Brussels. The European Council is not one of the EU's legislative institutions and therefore does not negotiate or adopt EU laws. Instead it sets the EU's policy agenda generally by adopting conclusions during European Council meetings. These identify issues of concern and actions to take.
