Enhancing conceptual understanding of variables with videos Stefan Korntreff, 2026-01-02 One of the most difficult instructional challenges in secondary mathematics education is enhancing low achieving students understanding of variables Although instructional videos have the potential to promote students understanding their effectiveness depends on empirically grounded content related designs that secure students conceptual focus and cognitive engagement This book addresses this issue using a sequential mixed methods approach that combines a design research study and a controlled trial An instructional design using interactive videos during the knowledge organization phase after students independent explorations was developed and investigated The qualitative analyses of students learning processes with the videos empirically substantiate the iterative redesign and allow generating hypotheses about effective scaffolding for cognitive engagement and conceptual focus through interactive features The subsequent randomized controlled trial shows the efficacy of the two phase instructional approach and validates the hypotheses for students who were cognitively engaged while working with the video

99 Tips for Creating Simple and Sustainable Educational Videos Karen Costa, 2023-07-03 The research is clear online learning works best when faculty build regular positive and interactive relationships with students A strategy that helps forge such a relationship is the use of videos Student satisfaction and course engagement levels also increase with the use of instructor generated videos the subject of this book Beginning by outlining the different types of videos you can create and what the research says about their

effectiveness Karen Costa explains how they can be designed to reinforce learning to align with and promote course outcomes and to save you time across your courses She then describes how to create successful videos with commonly available technologies such as your smartphone and without a major investment of time demonstrating the simple steps she took to develop her bank of videos and build her confidence to deliver short straightforward learning aids that are effective and personal Embedded QR codes in the text enable you to view sample videos and screencasts that bring the book's advice to life as you read If you've been wanting to include videos in your teaching but haven't found the time or confidence this book will help you to develop a simple and sustainable video development process supporting both your success and the success of your students *Adaptive and Adaptable Learning* Katrien Verbert, Mike Sharples, Tomaž Klobučar, 2016-09-06 This book constitutes the proceedings of the 11th European Conference on Technology Enhanced Learning EC TEL 2016 held in Lyon France in September 2016 The 26 full papers 23 short papers 8 demo papers and 33 poster papers presented in this volume were carefully reviewed and selected from 148 submissions *Mathematics*, 2004 **Apollo 14 Mission Report**, 1971 The pupil-teacher's course of mathematics, by a late fellow and senior mathematical lecturer Pupil teacher, 1879
