Soviet Science Under Control The Struggle For Influence:

Soviet Science under Control Jeffrey L. Roberg, 2016-07-27 Roberg examines the relationship between the political leadership of the Soviet Union and Soviet science Previously this relationship was typically characterized as one of Communist Party dominance over the sciences He argues that the relationship between scientists and the leadership is better viewed as bi directional The author concludes that scientists had an influence on policy makers in the areas of nuclear policy and human rights although not to the same degree as the Party had on science and scientists

The Private World of Soviet Scientists from Stalin to Gorbachev Maria Rogacheva, 2017-07-10 Rogacheva sheds new light on the complex transition of Soviet society from Stalinism into the post Stalin era Using the case study of Chernogolovka one of dozens of scientific towns built in the USSR under Khrushchev she explains what motivated scientists to participate in the Soviet project during the Cold War Rogacheva traces the history of this scientific community from its creation in 1956 through the Brezhnev period to paint a nuanced portrait of the living conditions political outlook and mentality of the local scientific intelligentsia Utilizing new archival materials and an extensive oral history project this book argues that Soviet scientists were not merely bought off by the Soviet state but that they bought into the idealism and social optimism of the post Stalin regime Many shared the regime's belief in the progressive development of Soviet society on a scientific basis and embraced their increased autonomy material privileges and elite status

Sociology in the Soviet Union and Beyond Elizabeth A. Weinberg, 2017-11-28 This fascinating and comprehensive volume traces the development scope and character of sociological research in Russia and subsequently the Soviet Union from the turn of the 20th century to the 1990s Opening with the lively social debates of pre Revolution Russia Elizabeth Weinberg discusses the intellectual factions of the post Revolutionary period and the eventual replacement of idealism with materialism leading to the emergence of Soviet sociology in 1956 The book examines the methods of research that were accepted as valid for Marxist research offering a profile of key Soviet sociologists and the research climate in which they operated It also discusses the main areas of research that predominated in Soviet sociology with separate chapters on two of the most significant public opinion research and time budget studies This fully revised newly updated edition of *The Development of Sociology in the Soviet Union* concludes with a discussion of the involvement of Soviet sociologists in the processes of perestroika and glasnost and the changing position of sociology from the late 1980s onwards

Science, Religion and Communism in Cold War Europe Paul Betts, Stephen A. Smith, 2016-05-14 Religion and science were fundamental aspects of Eastern European communist political culture from the very beginning and remained in uneasy tension across the region over the decades While both topics have long attracted a great deal of scholarly attention they almost invariably have been studied discretely as separate stories Religion Science and Communism in Cold War Europe is the first scholarly effort to explore the delicate interface of religion science and communism in Cold War Europe It brings together an international team of researchers who address this relationship from a

number of national viewpoints and thematic perspectives ranging from mysticism to social science space exploration to the socialist lifecycle and architectural heritage to pop culture

Russia's Turn to Persia Denis V. Volkov, 2018-08-16 Iran has remained one of the most effective tools in Russia's foreign policy towards the West for more than two hundred years Drawing on previously unpublished and recently declassified sources which change the established wisdom on many aspects of the history of Russia and Iran Denis V Volkov examines this relationship and situates it within the broader context of Oriental studies With a particular focus on the activities of scholars diplomats as well as scholars involved in academia missionary activities and the military within their own professional domains Volkov analyses the interaction of intellectuals with state structures and their participation in the process of shaping and conducting foreign policy towards Iran This work explores the specific institutional practices of Russia's Oriental studies including organisation of scholarly intelligence networks taking advantage of state power for the promotion of institutional and individual interests and profound engagement with Russia's domestic and foreign policy discourses of its time
