

# A riding style all your own.

There was a time when just owning a motorcycle set you apart. It's different now. More bikers. More riders. Less individuality.

Unless you've discovered the new Honda Nighthawk™ 650. Styled like nothing else on the road, the Nighthawk's superb, sculptured looks guide your eye across its long, sleek profile. From its gleaming front forks to its custom sport tail. Or even its jet-black engine and around the color-matched frame.

A beautiful bike, but most of all, a unique bike.

With independently adjustable handlebars that can be moved vertically and horizontally to a position that suits your taste and riding style. Or changes with it.

The Nighthawk flex. Just twist the throttle and feel the power of its high-revving 650 cc.

Four-cylinder, four-stroke engine. An engine fed by four 26 mm CV carburetors with an acceleration pump for crisp response. And equipped with a high-pitch exhaust valve for extra power into four exhaust with resonant chrome mufflers for impressive mid-range power.

But performance is only half the

story. This engine also has a reputation for reliability. The result of over a decade of building and racing four-cylinder engines. It features a maintenance-free transmission and ignition and its overall design makes it easy to work on.

The Nighthawk's suspension includes air-adjustable leading and front forks with dual hydraulic™ dampers for better traction. Five-way adjustable Variable Hydraulic Damping™ (VHDP) shock in the rear. Reverse-hydraulic Conestoga™ wheels with wide tubular tires. And an extra long wheelbase that improves handling at highway speeds.

So whether you're gliding through city streets, weaving across plains or navigating your way through traffic, the Nighthawk's suspension can respond to the challenge.

And when it's time to stop, just use the Nighthawk's dual front disc brakes with twin piston calipers.

The Nighthawk has landed.

And that's the best news of all. Because it's waiting for you now. Don't let it get away.
