Paul and the Gospels Michael F. Bird, Joel Willits, 2013-05-01 This volume which collects together the work of several established scholars attempts to situate the Apostle Paul the Pauline writings and the earliest Christian Gospels together in the context of early Christianity It addresses the issue of how the Christianity depicted in and represented by the individual Gospels relates to the vision of Christianity represented by Paul and the Pauline writings This raises such questions as to what extent did Paul influence the canonical and non canonical Gospels In what way are the Gospels

reactions to Paul and his legacy A comparison of the Gospels and Paul on topics such as Old Testament Law Gentile mission Christology and early church leadership structures represents a fruitful area of study While a number of volumes have appeared that attempt to assess the relationship between the historical Jesus and the Apostle Paul relatively few studies on Paul and the Gospels have been published This volume excellently fills this gap in New Testament Studies and makes a valuable contribution to studies on Christian Origins Pauline research and the Gospels CSB Harmony of the Gospels Steven L. Cox, Kendell Easley, CSB Bibles by Holman, 2024-06-15 CSB Harmony of the Gospels is a synchronized reading of the Gospels based on the work of John A Broadus and A T Robertson with each Gospel writer's account of events side by side In addition to the harmonious layout articles and commentary notes are included to provide deeper understanding of the four Gospels and the harmonized account of the life and teachings of Jesus CSB Harmony of the Gospels features the highly readable highly reliable text of the Christian Standard Bible CSB The CSB captures the Bible's original meaning without sacrificing clarity making it easier to engage with Scripture's life transforming message and to share it with others

What Are the Gospels? Richard A. Burridge, 2004-08-09 The publication of Richard Burridge's *What Are the Gospels* in 1992 inaugurated a transformation in Gospel studies by overturning the previous consensus about Gospel uniqueness Burridge argued convincingly for an understanding of the Gospels as biographies a ubiquitous genre in the Graeco Roman world To establish this claim Burridge compared each of the four canonical Gospels to the many extant Graeco Roman biographies Drawing on insights from literary theory he demonstrated that the previously widespread view of the Gospels as unique compositions was false Burridge went on to discuss what a properly biographical perspective might mean for Gospel interpretation which was amply demonstrated in the revised second edition reflecting on how his view had become the new

consensus This third twenty fifth anniversary edition not only celebrates the continuing influence of What Are the Gospels but also features a major new contribution in which Burridge analyzes recent debates and scholarship about the Gospels Burridge both answers his critics and reflects upon the new directions now being taken by those who accept the biographical approach This new edition also features as an appendix a significant article in which he tackles the related problem of the genre of Acts A proven book with lasting staying power What Are the Gospels is not only still as relevant and instructive as it was when first published but will also doubtlessly inspire new research and scholarship in the years ahead Provided by publisher **The Four Evangelists: with the Distinctive Characteristics of the Gospels** Edward Anderson Thomson, 1875
