Percy Arthur Silburn,2015-07-12 Excerpt from The Governance of Empire The object of presenting this work to the public is twofold Firstly as a colonial my desire is to present a colonial view of the imperial idea and secondly to endeavour to arouse among my countrymen in the United Kingdom especially a greater interest and pride in the Empire beyond the seas My critics may point to the number of able works bearing directly or indirectly upon the British Empire which have been published within recent years and it may even be said that I am repeating an oft told tale that many of the suggestions which I now put forward with all due deference to these self same critics have been made before My reply is The thing that hath been is that which shall be and that which is done is that which shall be done and there is no new things under the sun Eccles I 9 I am well aware that much which appears between these covers has at some time or another in different forms appeared in print but the labour entailed to bring the material together in such order as to bear intelligently upon the vast subject this book barely touches the fringe of is more than time will allow the average politician or man of affairs of the present day About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Forward But Not Too Fast** Dudley S. A. Cosby,1910 **Pompey, Cato, and the Governance of the Roman Empire** Kit Morrell,2017-03-09 Provincial governance under the Roman republic has long been notorious for its corrupt officials and greedy tax farmers though this is far from being the whole story This book challenges the traditional picture contending that leading late republican citizens were more concerned about the problems of their empire than is generally recognized and took effective steps to address them Attempts to improve provincial governance over the period 70 50 BC are examined in depth with a particular focus on the contributions of Gnaeus Pompeius Magnus Pompey and the younger Marcus Porcius Cato These efforts ranged well beyond the sanctions of the extortion law encompassing show trials and model governors and drawing on principles of moral philosophy In 52 50 BC they culminated in a coordinated reform programme which combined far sighted administrative change with a concerted attempt to transform the ethos of provincial governance the union of what Cicero called Cato s policy of ethical governance with Pompey s lex de provinciis a law which transformed the very nature of provincial command Though more familiar as political opponents Pompey and Cato were united in their interest in good governance and were capable of working alongside each other to effect positive change This book demonstrates that it was their eventual collaboration in the late 50s BC that produced the republic s most significant

programme of provincial reform In the process it offers a new perspective on these two key figures as well as an enriched understanding of provincial governance in the late Roman republic **Handbook of Comparative and Development Public Administration** Ali Farazmand,2019-02-21 With contributions from nearly 80 international experts this comprehensive resource covers diverse issues aspects and features of public administration and policy around the world It focuses on bureaucracy and bureaucratic politics in developing and industrialized countries and emphasizing administrative performance and policy implementation as well as political system maintenance and regime enhancement The book covers the history of public administration and bureaucracy in Persia Greece Rome and Byzantium and among the Aztecs Incas and Mayas public administration in small island states Eastern Europe and ethics and other contemporary issues in public administration *Government and Governance of European Empires, 1450-1800* A.
