The Great American Empire:

The Great American Empire Stanley Berne,1982-09 *The Great American Empire* Stanley Berne,1982 A novel in which an elderly poet looks back at his life and his passage from the hopefulness of youth to the decay of old age **The Forging of the American Empire** Sidney Lens,2003-06-20 From Mexico to Vietnam from Nicaragua to Lebanon and more recently to Kosovo East Timor and now Iraq the United States has intervened in the affairs of other nations Yet American leaders continue to promote the myth that America is benevolent and peace loving and involves itself in conflicts only to defend the rights of others excesses and cruelties though sometimes admitted usually are regarded as momentary aberrations This classic book is the first truly comprehensive history of American imperialism Now fully updated and featuring a new introduction by Howard Zinn it is a must read for all students and scholars of American history Renowned author Sidney Lens shows how the United States from the time it gained its own independence has used every available means political economic and military to dominate other nations Lens presents a powerful argument meticulously pieced together from a huge array of sources to prove that imperialism is an inevitable consequence of the U S economic system Surveying the pressures external and internal on the United States today he concludes that like any other empire the reign of the U S will end and he examines how this time of reckoning may come about **The New Nationalism--How The Next Great American Debate Will Restore Our Country By Recasting Our Politics** Harlan M. C. Field,2012-07-10 In this book Harlan Field boldly asks modern Americans to leave behind their old politics which have placed America s greatness in jeopardy and exhorts us to pursue a new political strategy that will assure America s great tradition for its future generations As we enter a new millennium Harlan observes we stand poised to discard the crowning achievement of the last thousand years the modern Nation State The only known entity that is capable of preserving Freedom and opportunity for the individual justice for the masses a healthy environment a stable society and a vibrant economy is falling victim to the seemingly invincible juggernaut of Globalism The five cardinal prerogatives of a free people are all being surrendered with little debate and even less thought The rights of a sovereign people to formulate their own independent foreign policy to raise and command a national army to admit or exclude aliens to levy tariffs on goods of foreign manufacture and to coin their own money are under attack all over the world through such peculiar pretenders to legitimacy as the North American Free Trade Agreement NAFTA the General Agreement on Tariffs and Trade GATT and the European Union E U W e no longer can even remember what makes a group of people into a nation A common culture a common heritage a common language shared goals shared sacrifice shared progress This book is a must read for our politicians on the left and on the right lest because of party politics America is made to give into a secondary role on the world stage of ruthless politics and demagoguery **American Empire** A. G. Hopkins,2019-08-27 Compelling provocative and learned This book is a stunning and sophisticated reevaluation of the American empire Hopkins tells an old story in a truly new way American history will never

The Great American Empire, 1879 *The Great American Scaffold* Frank Austermühl, 2014-02-15 Based on extensive quantitative and qualitative analyses of a corpus of American presidential speeches that includes all inaugural addresses and State of the Union messages from 1789 to 2008 as well as major foreign and security policy speeches after 1945 this research monograph analyzes the various forms and functions of intertextual references found in the discourse of American presidents Working within an original interdisciplinary theoretical framework established by theories of intertextuality discourse analysis and presidential studies the book discusses five different types of presidential intertextuality all of which contribute jointly to creating a set of carefully manipulated and politically powerful images of both the American nation and the American presidency The book is intended for scholars and students in political and presidential studies communications American cultural studies and linguistics as well as anyone interested in the American presidency in general *Great*
