Industry in the Wilderness by Frank Rasky is an account of the overcoming of natural elements in order to harvest the resource wealth of northwestern Ontario It is part of the Dundurn Local History series It is an oral history of lumberjacks gold seekers bush pilots and early hydro men Herein lies the major problem with the book Rasky attempts to cover four important aspects of northwestern Ontario in only 128 pages This impossible task is even further complicated by the fact that more than half of the book is devoted to pictures and diagrams The pictures and diagrams dominate the book to such an extent that one could ignore the text and still find a wealth of information about the topic The diagrams of a paper mill a gold mine and a hydro electric power plant could be a valuable teaching aid to students interested in those areas The pictures are exceptionally good Umanitoba ca cm cmarchive vol12no5 industryinthewilderness.html
