Answers for the Honest Skeptic Ted Even,2021-07-01 It is true that mankind himself has probably always been characterized with the main desire to determine just what spiritual truth really is For centuries and centuries highly educated philosophers and religious men alike have always stood toe to toe disagreeing on spiritual truth Since they cannot all be right this would strongly indicate that education religious persuasion or even intelligence has little to do with our discovery of the real spiritual truth For if these things were truly critical then obviously the spiritual intellectual giants of history would have agreed on spiritual truth long ago In this work author Ted Even endeavors to show that the disagreeing intellectuals skeptics of the past only serve to reinforce Christ s radical statement about our need to just become like little children in order to discover the spiritual truth and that literally everyone has the same opportunity to enter the kingdom of heaven on that basis However while super intelligence or big degrees may not be necessary the discovery of spiritual truth does require just one very reasonable quality of heart which little children have always possessed Find out just what this basic quality of heart is as you continue your search for spiritual truth within this simple to understand work which only leaves the real spiritual truth left standing     *The Cartesian Mind* Jorge Secada,Travis Tanner,Cecilia Wee,2025-09-03

### **Raising Contributors in a Culture of Consumerism and Skepticism**

Dr. Brandon Tatum,2023-03-13 What do we want for the next generation What does our future hold What can we do as adults to foster a positive future for our kids Most parents grandparents teachers and ministers I talk to want to equip the next generation with the necessary tools to be difference makers in their world but they don t know how to It feels as if we are fighting against a cultural wave that is making it harder and harder to lead our kids to love God and make a difference So what do we do This book takes a deep look into the culture of Generation Z and Generation Alpha The intent is to create an understanding of how to raise a generation of contributors to the kingdom and how to remove the barriers that stand in our way We all know that these emerging generations are welcoming us into a new digital frontier full of consumption technology and entertainment that is more focused on happiness than contribution Our kids are also living in a world of skepticism about truth and faith We will unpack these faith questions and explore the tensions that exist between older and younger generations Our kids are the future of our churches cities states and country It is critical that we begin to acknowledge that as adults we must be intentional in understanding the culture our kids live in and be humble in our approaches to developing them as faithful servants and successful adults So how do we raise contributors Let s begin to discuss practical ways to raise

kids who are image bearers and difference makers I call these kids contributors      **Truth Seeker** ,1895      *Christianity and Cloning* Freddie Robinson,1998      *The Friend* ,1895      **The Great Controversy—Illustrated** Ellen G.
