The Great Economic Debate An Ethical Analysis:

The Great Economic Debate J. Philip Wogaman, 1977-01-01 *The Impact of Ethnic, Political, and Religious Violence on Northern Nigeria, and a Theological Reflection on Its Healing* Sunday Bobai Agang, 2011-09-07 This publication seeks to challenge established thinking about the causes of violence in Northern Nigeria It explores immediate and long term effects of that violence through reflection study and survey of previous research The fundamental argument within is that ethnic political and religious violence has affected Christian perspectives and core values and thus has hampered efforts towards just peacemaking **Social Ethics in the Making** Gary Dorrien, 2011-04-06 In the early 1880s proponents of what came to be called the social gospel founded what is now known as social ethics This ambitious and magisterial book describes the tradition of social ethics one that began with the distinctly modern idea that Christianity has a social ethical mission to transform the structures of society in the direction of social justice Charts the story of social ethics the idea that Christianity has a social ethical mission to transform society from its roots in the nineteenth century through to the present day Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy church and general public Looks at the wide variety of individuals who have been prominent exponents of social ethics from academics and self styled public intellectuals through to pastors and activists Set to become the definitive reference guide to the history and development of social ethics Recipient of a CHOICE Outstanding Academic Title for 2009 award *The Political Theory of Conservative Economists* Conrad Waligorski, 1990 A study of the political theory that underlies the conservative economic thought of such economists as Milton Friedman James Buchanan and Friedrich Hayek and its implications for public policy The author analyzes the political content of ideas that justify a laissez faire policy *Champions of the Poor* Barend A. DeVries, 1998-03-01 Barend A de Vries a distinguished international economist examines the economic roots of poverty the actions that can be taken to eradicate it and the ethical case for integrating the poor into the mainstream of society De Vries applies Judeo Christian ethics in particular the values of social justice and compassion for the poor to the problem of poverty in both the United States and in developing countries Bringing together the insights of economics and ethicists he considers both the economic feasibility of religious views regarding the eradication of poverty and the ethical aspects of economic programs He analyzes the poverty of women resulting from discrimination the impact of environmental degradation on the poor the allocation of funding to military rather than social programs and the implications of the enormous debts incurred by poor countries In addressing these conditions he demonstrates the pressing need for action on both economic and ethical grounds *Champions of the Poor* offers an unbiased presentation of the ethical positions taken by Jews Catholics mainline Protestants and Evangelicals and stresses the need for all social sectors religious and secular business labor and government to work together to eradicate poverty By reassessing poverty from these seemingly disparate approaches it seeks to bring us closer to solving this age old problem *Liberating the Church* Howard A. Snyder, 1996-12-03 The Church gets into trouble

whenever it thinks it is in the church business rather than the Kingdom business In the church business people are concerned with Kingdom activities all human behavior and everything God has made Church people think about how to get people into the church Kingdom people think about how to get the church into the world *Liberal Economics and Democracy* Conrad Waligorski,1997 Waligorski shows why there is such resilience and viability to this brand of liberalism The chapter on Keynes is as good a short piece on the economist as can be found anywhere Kenneth M Dolbeare author of *American Political Thought* A coherent and insightful book by a sagacious thinker Charles E Lindblom author of *Politics and Markets* *Issues of Justice* Warren R. Copeland,2000-09 **The Journal of Markets & Morality** ,2003 *Religion and Economic Ethics* Joseph F. Gower,1990-06-29 It remains the case that economic ethics is still an underdeveloped specialization within the discipline of religious ethics Contemporary commentators have lamented the still emergent status of economic ethics and recently some have begun to point out new directions for this area of moral reflection Part of the problem has been the historical fact that not many religious ethicists have taken the time to acquire the required specialization competence in economics economic theory and history Religion and Economic Ethics presents nineteen readings that illuminate the economic side of religious ethics Contributions include *Economic Justice and the Common wealth of Peoples* by Douglas Sturm *Economic Systems and the Sacramental Imagination* by Joseph La Barge *Common Moral and Religious Grounds for Uncommon Economic Times* by James F Smurl *Liberation Theology and the Vatican* by Arthur F McGovern Co published with the College Theology Society *Indian Journal of Economics* ,1981 **"Are Economists Basically Immoral?"** Paul T. Heyne,2008 A well trained theologian a gifted and dedicated teacher of economics for over forty years and the author of a highly regarded and widely used textbook *The Economic Way of Thinking* Paul Heyne influenced generations of students of economics Many of the essays in this volume are published here for the first time The editors Geoffrey Brennan and A M C Waterman have divided Heyne s essays thematically to cover three general areas the ethical foundations of free markets the connection between those ethical foundations and Christian thought and the teaching of economics both method and substance Heyne s writings are unique in that he takes the critics of the free market order seriously and addresses their arguments directly showing how they are defective in their understanding of economics and in their ethical and theological underpinnings The engaging style of Heyne s essays makes them accessible to students as well as to scholars Even in discussions of topics well beyond the fundamental level Heyne still succeeds in providing students with an appreciation of basic economic principles **Business, Religion, and Ethics** Donald G. Jones,1982 **Defense Systems Management Review** ,1980 Disseminates information concerning new developments and effective actions taken relative to the management of defense systems programs and defense systems acquisition **Religion, Economics, and Social Thought** Gregory Baum,1986 Proceedings of an International Symposium on Religion Economics and Social Thought held August 2 4 1982 in Vancouver managed by the Centre for the Study of Economics and Religion of the Fraser Institute

Verso of t p Includes bibliographies and index John Rawls and His Critics J. H. Wellbank, Denis Snook, David T. Mason, 1982 **Religious Book Review** ,1976 *Official Report of the Debates of the House of Commons of the Dominion of Canada* Canada. Parliament. House of Commons, 1879 **Naval Engineers Journal** ,1983 *Faith and Fragmentation* J. Philip Wogaman, 1985
