**The Art of Egon Schiele** Erwin Mitsch, 1988 Examines the character and developments of the art of Egon Schiele and considers a balanced selection of his paintings and drawings    *Art International*, 1974    Gustav Klimt Ilona Sármány-Parsons, 1987 Another title from The Crown Art Library, the most useful monographs available on a wide range of significant artists. Each volume is written by an internationally recognized authority and is generously illustrated with full color reproductions of the artist's paintings and two color reproductions of sketches and line drawings. From the Trade Paperback edition    **Desmos of Delta Sigma Delta** Delta Sigma Delta, 1942    Ferdinand Hodler: Elective Affinities from Klimt to Schiele Hans-Peter Wipplinger, 2017 Swiss painter Ferdinand Hodler 1853-1918 was an exponent of Symbolism and Jugendstil, a pioneer of Expressionism and an innovator of monumental painting. Hodler's significance can also be charted through those he influenced in Viennese Modernist circles such as Gustav Klimt, Koloman Moser, Oskar Kokoschka and Egon Schiele. Hodler's landscapes, self-portraits and portraits of women such as the haunting series following the death of his lover Valentine God Darel bristle with barely restrained energy and color, paving the way for the expressionistic decorative experiments of the next generation of artists. Published to accompany the artist's most comprehensive exhibition in Austria since his resounding success at the 1904 Secession, Ferdinand Hodler: Elective Affinities from Klimt to Schiele explores the main themes of Hodler's work and puts him

in the context of his peers and followers     Gustav Klimt Wilfried Rogasch,2022-04 An overview of Gustav Klimt s life and work commemorating the 160th anniversary of the artist s birth Gustav Klimt 1862 1918 is an artist particularly associated with Viennese Jugendstil and the Golden Age As a sought after painter of frescoes and the founding president of the Vienna Secession as the portraitist of fashionable ladies and as an illustrator of unashamed eroticism Klimt was both the enfant terrible and the darling of Viennese society The creator of icons of art history like The Kiss and his portraits of Adele Bloch Bauer Klimt focused his oeuvre on the representation of the feminine in all its facets After the turn of the century he developed his inimitable Golden Style in which he shows his models in precious robes and an ornamental fusion with the picture background Yet this volume shows that Gustav Klimt s complex oeuvre extends beyond these popular paintings Beginning with Klimt s early works whose formal language was still based on the tradition of historicism the book discusses Klimt s Faculty pictures which were produced during a time when his style was changing so that even their preliminary sketches caused a scandal The book thus illuminates Klimt as both a symbolic figure and a progressive artist of the Vienna Secession at the same time it reveals the artistic development that led to his status as such     *Delta Sigma Delta-Desmos* ,1945     **Parnassus** ,1929     **Sketchbooks** Christian M. Nebehay,Egon Schiele,1989 Few of Egon Schiele s sketchbooks are known to have survived intact many were dismantled after his death and their pages sold individually Reproduced here for the first time ever in their entirety are all thirteen of the complete books now preserved in public collections in Vienna They date from 1911 to 1918 the last and most important years of the artist s short life To place the sketchbooks in their context in Schiele s oeuvre and to give a comprehensive view of his output more than a hundred of his finished paintings watercolors and gouaches are presented in full color alongside their related studies Accompanying the reproductions are illuminating excerpts from Schiele s correspondence and other contemporary sources which shed penetrating light on the artist s intimate life Dust jacket
