The Great Storm:

The Greatest Storm Martin Brayne, 2002-11-08 All but forgotten now the Great Storm of 26 27 November 1703 was the worst storm experienced in recorded history in the British Isles Over 8000 people died and the losses of property and shipping were immense Martin Brayne tells in vivid detail the story of this tragic and catastrophic event While almost everyone knows something about those two classic disaster scenarios of the Stuart age the Great Fire of 1666 and the Great Plague of the year before hardly anyone knows the story of the Great Storm of 1703 the worst that has occurred in the British Isles Winds and rain lashed the entire country and floods were reported almost everywhere Famously Henry Winstanley had the misfortune to be in the wooden lighthouse which he had designed on Eddystone Rocks of Plymouth on 26 November 1703 The lighthouse was destroyed and Winstanley died *The Great Storm Off the Atlantic Coast of the United States March 11-14, 1888* Edward Everett Hayden, 1888 *The Great Storm of 1839* Eddie Little, 2002 **The Great Hurricane of 1780** Wayne Neely, 2012-09-17 The Great Hurricane of 1780 also known as Hurricane San Calixto II is one of the most powerful and deadliest North Atlantic hurricanes on record Often regarded as a cataclysmic hurricane the storm's worst effects were experienced on October 10 1780 In *The Great Hurricane of 1780* author Wayne Neely chronicles the chaos and destruction it brought to the Caribbean This storm was likely generated in the mid Atlantic not far from the equator it was first felt in Barbados where just about every tree and house on the island was blown down The storm passed through the Lesser Antilles and a small portion of the Greater Antilles in the Caribbean between October 10 and October 16 of 1780 Because the storm hit several of the most populous islands in the Caribbean the death toll was very high The official death toll was approximately 22 000 people but some historians have put the death toll as high as 27 500 Specifics on the hurricane's track and strength are unclear since the official North Atlantic hurricane database only goes back as far as 1851 Even so it is a fact that this hurricane had a tremendous impact on economies in the Caribbean and parts of North America and perhaps also played a major role in the outcome of the American Revolution This thoroughly researched history considers the intense storm and its aftermath offering an exploration of an important historical weather event that has been neglected in previous study **The Great Storm** Hancock, Sibyl Hancock, 1988 On September 8 1900 the island city of Galveston Texas was hit by a great hurricane Much of the city was destroyed and more than 6000 people were killed This is a fictional story of that horrible day that shows the courage and strength of people in times of emergency **The Palatine Note-book**, *Life of Robert Fairfax of Steeton Vice-admiral, Alderman, and Member for York A.D. 1666-1735*, 1885 **The Great Poets and Their Theology** Augustus Hopkins Strong, 1899 **Ledsham's Repetition Book**, 1883 **Our Earth and Its Story** Robert Brown, 1889 **The History of Jesus of Nazara; Considered in Its Connection with the National Life of Israel, and Related in Detail, Translated from the German** Theodore Keim, 1879 **An inquiry into the nature and course of storms in the Arabian sea, and a catalogue and brief history of all recorded cyclones in that sea from**
