academics and researchers will appreciate its value in the study of comparative law in this relatively new and challenging field **Land Use Law for Sustainable Development** Nathalie J. Chalifour, Patricia Kameri-Mbote, Lin Heng Lye, John R. Nolan, 2006-11-20 This 2007 book surveys the global experience to date in implementing land use policies that move us further along the sustainable development continuum. The international community has long recognized the need to ensure ongoing and future development is conducted sustainably. While high level commitments towards sustainable development such as those included in the Rio and Johannesburg Declarations are politically important they are irrelevant if they are not translated into reality on the ground. This book includes chapters that discuss the challenges of implementing sustainable land use policies in different regions of the world revealing problems that are common to all jurisdictions and highlighting others that are unique to particular regions. It also includes chapters documenting new approaches to sustainable land use such as reforms to property rights regimes and environmental laws. Other chapters offer comparisons of approaches in different jurisdictions that can present insights which might not be apparent from a single jurisdiction analysis.

The Weekly Notes Frederick Pollock, 1893 **The Irish Law Times and Solicitors' Journal**, 1887 **The Boundaries of Australian Property Law** Hossein Esmaeili, Brendan Grigg, 2016-09-22 The Boundaries of Australian Property Law offers a unique perspective on real property law in Australia. As the overwhelming majority of land interests in Australia now fall under the Torrens title system this book's particular focus on the development and operation of the Torrens system in Australia is both timely and welcome. Addressing the prescribed Priestly 11 requirements for a property law subject in Australia this informative and academically rigorous book includes carefully selected statutory material and case law from all Australian jurisdictions as well as the United Kingdom. The general law system is also discussed and referred to where necessary to give context and depth to the analysis of real property law. Written by prominent real property law academics from law schools around Australia and edited by Hossein Esmaeili and Brendan Grigg this text is a modern and much needed addition to real property law literature.
