## **In Truth**

Matthew Fraser, 2020-03-27 From ancient Rome to the current Internet age this sweeping history of ideas explores how different epochs wrestled with the issue of truth and lies From the ancient Greeks and Romans to the modern era how have people determined what is true How have those with power and influence sought to control the narrative Are we living in a post truth era or is that notion simply the latest attempt to control the narrative The relationship between truth and power is

the key theme Moving through major historical periods the author focuses on notable people and events from well known leaders like Julius Caesar and Adolf Hitler to lesser known individuals like Procopius and Savonarola He notes distinct parallels in history to current events Julius Caesar s publication of his Gallic Wars and Civil Wars was an early exercise in political spin not unlike what we see today During the English Civil War and the Enlightenment pamphleteering coupled with the new power of the printing press challenged the status quo as online and social media does in our time And fake news was already being used by German chancellor Otto von Bismarck in nineteenth century Europe and by the yellow journalism of American newspaper magnates William Randolph Hearst and Joseph Pulitzer near the turn of the twentieth century The author concludes optimistically noting that we are debating and discussing truth more fiercely today than in any previous era The determination to arrive at the truth despite the manipulations of the powerful bodes well for the future of democracy

Richard Smith Elliott,1883 Ben Franklin Sol Smith and Horace Greeley have written of themselves and their times So have Argo Lamartine and many others Abler men than I no doubt but because Jupiter is a great planet do we say the little star shall not twinkle And why then may not I write modestly of myself and times As it would make the book too big for any writer to tell all the truth about himself I need not tell distasteful things It is therefore a safe business to write a memoir as anything one would rather not tell can be left out and if I think of any dubious things in my own life I can pass them over Great slices of the actual life of any man must be thrown aside whether he or another tells the tale but if the reader hankers after the untold thinking it might be savory with peccadillos or the like let him imagine the void filled with his own shortcomings and he need not care to feast on those of men no better than himself Page 1 **Cole's fun doctor.
