A Gift of Freedom John Jos. Miller, 2022-03-22 In the 1970s John M Olin one of the country's leading industrialists decided to devote his fortune to saving American free enterprise Over the next three decades the John M Olin Foundation funded the conservative movement as it emerged from the intellectual ghetto and occupied the halls of power The foundation spent hundreds of millions of dollars fostering what its longtime president William E Simon called the counterintelligentsia to offset liberal dominance of university faculties and the mainstream media and to make conservatism a significant cultural force Among the counterintellectuals the foundation identified and supported at key stages of their careers were Charles Murray during his early work on welfare reform Allan Bloom as he wrote *The Closing of the American Mind* and Francis Fukuyama as he was developing his *End of History* thesis Using exclusive access to the John M Olin Foundation's leading personalities as well as its extensive archives John J Miller tells the story of an intriguing man and his unique philanthropic vision He gives fascinating insights into the foundation's role in helping the CIA fund anti Communist organizations during the Cold War and its extensive help to Irving Kristol and others as they moved from left to right to found the neoconservative movement He tells of the foundation's early and critical role in building institutions such as the Federalist Society and the Heritage Foundation which served to transform conservative ideas into national policies *A Gift of Freedom* shows how John M Olin's venture capital fund for the conservative movement helped develop one of the leading forces in American politics and culture

Global Greens James M. Sheehan, 1998 Published in 1998 *Global Greens* narrates the story of international environmental groups in world affairs It examines how nongovernmental organizations NGOs work with the United Nations and other international organizations to promote environmentalist policies and treaties To understand many of the current foreign policy controversies it is increasingly important to know how international environmental groups are involved *Global Greens* describes in detail NGO activity at some of the most significant UN environmental conferences through the end of the 20th century including the global warming conference in Kyoto Japan Most of the story is serious but some of it amuses Inside the Kyoto conference hall four men disguised as world leaders play soccer with a large inflatable balloon of the planet activists blanketed the building with propaganda leaflets and a group of grim faced individuals stand solemnly around three ice carvings of penguins begging the little creatures to forgive mankind for permitting the global warming that causes them to melt As recent news developments have confirmed environmental groups have been accomplishing and continue to accomplish their objectives gradually and under a cloak of secrecy Few Americans know that nonprofit organizations staffed by professionals primarily Americans and financed by a mix of private and public funds exercise real power in the conduct of diplomacy and the creation of international policy A global environmental movement is using international agencies to undermine national self government economic freedom and personal liberty *Global Greens* exposes the behind the scenes efforts of this well funded and ideologically driven force

Golden Donors ,2001-11-01 The world of the golden donors the rich and influential philanthropic foundations is quite likely the least known and yet most pervasive of all the invisible money and power networks in America Nielsen explores the 36 largest of the 22 000 currently active foundations He takes the reader inside each of the giants to analyze its people policies and performance From the most famous Ford and MacArthur to the most obscure Mabee and Moody the author lets in daylight and lets out the bats as well as the butterflies Golden Donors is a journey through 36 fiefdoms each of which controls upwards of 250 million dollars beyond the reach of the IRS in order to encourage medical research support cultural and artistic endeavors and not least to buttress immensely expensive educational institutions Which of the great foundations in recent years have been spectacular successes and which are failures Is today s leadership in the third stream economy

equal to the task Are foundations seedbeds or killing grounds of new social and political ideas And what is the federal government and a variety of administrations doing to help or harm this new economy Nielsen provides many surprising and some quite startling answers for the millions of Americans whose lives the golden donors directly or indirectly affect When Golden Donors first appeared A Bartlett Giamatti praised it as an historical guide a shrewd critique and an impassioned warning This remarkable book on the nation s largest foundations must be read by anyone concerned with America s unique not for profit sector and the quality of our national life Kingman Brewster saw the book as a revealing mirror held up to the faces of big philanthropy a must book for foundation creators and leaders Thornton F Bradsahw said Golden Donors describes the large American foundations what they are how they got that way and wherein lies their strength and their potential The book is wise witty and perceptive indispensable reading Waldemar A Nielsen was born in Pennsylvania educated in Missouri and was a Rhodes Scholar at Oxford University He served as a naval officer diplomat expert on Africa foundation officer and trustee and foreign affairs analyst He has written for The New Yorker Harper s and other publications A leading counselor on philanthropy policy Nielsen has advised a number of present and former clients including John D Rockefeller 3rd J Paul Getty and Robert O Anderson as well as major corporations and foundations

Abusing Donor Intent Doug White,2014-04-01 It was the largest one time amount 35 million anyone had ever donated to benefit a university The Robertsons were specific about the way the money was to be used It was intended to help Princeton s Woodrow Wilson School of Public and International Affairs focus on sending its graduates into those areas of the federal government concerned with international relations But the university the son says was ignoring my parents intentions Furthermore Princeton s administrators were harming the country That s not as you might imagine the way Princeton saw it or sees it today How much control over a gift does a donor have after the gift is given How accountable is a non profit recipient for the use of the gift Robertson v Princeton may be the most important case higher education has faced over the question of honoring the wishes of the donor Wall Street Journal Doug White s careful and fair study of the seminal Robertson Foundation endowment litigation against Princeton University should be read by all donors and donees As a former head of the New York State Law Department s Charities Bureau I know donors have to have both courage and resources to enforce their rights especially against iconic donees Fortunately the Robertsons had both Bill Josephson Former head of the Charities Bureau New York State Attorney General s office This book is based on extensive research and interviews with leading attorneys Victoria Bjorklund and Douglas Eakeley Princeton and Ron Malone and Seth Lapidow Robertson family experts for both sides representatives of other major nonprofits philanthropists and high profile public figures including George H W Bush Brent Scowcroft Chuck Robb and Paul Volcker

Strategic Giving Peter Frumkin,2008-09-15 The philanthropic landscape is changing dramatically as a new generation of wealthy donors seeks to leave its mark on the public sphere Peter Frumkin reveals in Strategic Giving why these donors could benefit from having a comprehensive plan to guide their giving

And with this thoughtful and timely book he provides the much needed framework to understand and develop this kind of philanthropic strategy After listening for years to scores of individual and institutional funders discuss the challenges of giving wisely Frumkin argues here that contemporary philanthropy requires a thorough rethinking of its underlying logic Philanthropy should be seen he contends as both a powerful way to meet public needs and a meaningful way to express private beliefs and commitments He demonstrates that finding a way to simultaneously fulfill both of these functions is crucial to the survival of philanthropy and its potential to support pluralism in society And he goes on to identify the five essential elements donors must consider when developing a philanthropic strategy the vehicle through which giving will flow the way impact will be achieved the level of engagement and profile sought the time frame for giving and the underlying purpose of the gift Frumkin's point is that donors must understand strategic giving as the integration of these five critical dimensions to giving Essential reading for donors researchers and anyone involved with the world of philanthropy Strategic Giving provides a new basis for understanding philanthropic effectiveness and a promising new way for philanthropy to achieve the legitimacy that has at times eluded it *Putting Wealth to Work* Joel L. Fleishman, 2017-09-26 By 2025
