summary tables which illustrate the similarities or differences that help the reader to understand the processes described. Data is presented in graphical form which is useful for identifying common features of the major processes that determine the current chemical state of the planets. The book will interest general readers with a background in chemistry who will enjoy reading about the chemical diversity of the solar system's objects. It will serve as an introductory textbook for graduate classes in planetary sciences but will also be very popular with professional researchers in academia and government college professors and postgraduate fellows.

The Green Rust (Classic Reprint) Edgar Wallace, 2015-07-12. Excerpt from *The Green Rust*. Yet between these two men the millionaire ship builder and the successful solicitor utterly different in their tastes and their modes of life was a friendship deep and true. Strange that death should take the strong and leave the weak so thought James Kitson as he watched his friend.
