The Great American College Tuition Ripoff:

The Great American Jobs Scam Greg LeRoy, 2005-07-21 For the past 20 years corporations have been receiving huge tax breaks and subsidies in the name of jobs jobs jobs But as Greg LeRoy demonstrates in this important new book it s become a costly scam Playing states and communities off against each other in a bidding war for jobs corporations reduce their taxes to next to nothing and win subsidy packages that routinely exceed 100 000 per job But the subsidies come with few strings attached So companies feel free to provide fewer jobs or none at all or even outsource and lay people off They are also free to pay poverty wages without health care or other benefits All too often communities lose twice They lose jobs or gain jobs so low paying they do nothing to help the community and lose revenue due to the huge corporate tax breaks That means fewer resources for maintaining schools public services and infrastructure In the end the local governments that were hoping for economic revitalization are actually worse off They re forced to raise taxes on struggling small businesses and working families or reduce services or both Greg LeRoy uses up to the minute examples naming names including Wal Mart Raytheon Fidelity Bank of America Dell and Boeing to reveal how the process works He shows how carefully corporations orchestrate the bidding wars between states and communities He exposes shadowy site location consultants who play both sides against the middle and he dissects government and corporate mumbo jumbo with plain talk The book concludes by offering common sense reforms that will give taxpayers powerful new tools to deter future abuses and redirect taxpayer investments in ways that will really pay off

American Journal of Education and College Review ,1872 Vol 25 is the report of the commissioner of education for 1880 v 29 report for 1877

The Great American College Tuition Rip-off Paul Streitz, 2005-03 This book is an examination of why American colleges and universities have extraordinarily high tuitions and why those tuitions grow faster than the rate of inflation It examines Hamilton College showing trends in tuition number of faculty comparison to non elite colleges and other information It examines the role that U S News and World Reports plays in increasing college tuition It determines that college tuitions are not set by the actual costs of running a college rather they are set by how much money an institution can obtain It shows the dramatic increases in the number of faculty administrators and staff It shows the proliferation of courses and extra curricular programs unnecessary for an education The book determines that the financial objective of colleges and universities is to spend as much money as possible with no sense of cost consciousness or the impact of higher tuitions on students The institutions then raise tuition and ask for more money from the alumni Tuitions are not set by costs but by demand It concludes that parents and students must organize into Parent Student Associations and make tuition a matter of collective bargaining
