FINDINGS The research included in this issue shows that from a network perspective business strategy plays an important role in guiding the development of individual relationships and networks Exploring the network approach in strategic management allows one to adopt the category of network strategy which can be described through the coexistence of cooperation and competition

IMPLICATIONS FOR THEORY AND PRACTICE Considerations lead to the conclusion that the business strategy must be expressed in terms of potential changes in the network in which the company operates taking into account its current and selected position in the network Despite the fact that the current state of research on organizational networks in the theory of strategic management shows that this approach is already quite well established on the basis of the analysis of research results concerning the conceptualization of strategic aspects of the network the existing problems and limitations were identified
