Business Studies September Memorandum 2014

B Lingard

Business Studies September Memorandum 2014:

Journal of Business Research, 1986 *Sports Business Management* George Foster, Norm O'Reilly, Antonio Dávila, 2016-01-08 Sports Business Management will equip students with a comprehensive understanding of the sport industry. With a focus on management strategy, marketing and finance, the decision-making approach of the book emphasizes key concepts while translating them into practice. Foster, O'Reilly, and Dávila present a set of modular chapters supported with plenty of examples, mini cases, and exercises to help students apply the decision-making approach to real-world situations. Covering an international array of sports and organizations including the Olympic Games, FIFA World Cup, US Major League Baseball, and more, the book also covers unique topics such as diversity in sport, the impact of technology, and social media. Rounding this out, the book provides around 50 Harvard/Stanford cases along with case notes for instructors. This is an ideal textbook for upper-level undergraduate and graduate students of sports business and management, fully supported by a companion website featuring PowerPoint slides, test questions, teaching notes, and other tools for instructors.

The New Urban Park Hal Rothman, 2004 From Yellowstone to the Great Smoky Mountains, America's national parks are sprawling tracts of serenity, most of them carved out of public land for recreation and preservation around the turn of the last century. America has changed dramatically since then, and so has its conceptions of what parkland ought to be. In this book, one of our premier environmental historians looks at the new phenomenon of urban parks, focusing on San Francisco's Golden Gate National Recreation Area as a prototype for the twenty-first century. Cobbled together from public and private lands in a politically charged arena, the GGNRA represents a new direction for parks as it highlights the long-standing tension within the National Park Service between preservation and recreation. Long a center of conservation, the Bay Area was well positioned for such an innovative concept. Writing with insight and wit, Rothman reveals the many complex challenges that local leaders, politicians, and the NPS faced as they attempted to administer sites in this area. He tells how Representative Phillip Burton guided a comprehensive bill through Congress to establish the park and how he and others expanded the acreage of the GGNRA, redefined its mission to the public, forged an identity for interconnected parks, and struggled against formidable odds to obtain the San Francisco Presidio and convert it into a national park. Engagingly written, *The New Urban Park* offers a balanced examination of grassroots politics and its effect on municipal, state, and federal policy. While most national parks dominate the economies of their regions, GGNRA was from the start tied to the multifaceted needs of its public and political constituents, including neighborhood, ethnic, and labor interests, as well as the usual supporters from the conservation movement. As a national recreation area, GGNRA helped redefine that category in the public mind. By the dawn of the new century, it had already become one of the premier national park areas in terms of visitation. Now, as public lands become increasingly scarce, GGNRA may well represent the future of national parks in America. Rothman shows that this model works, and his book will be an invaluable resource for planning tomorrow's parks.

Robert R. Locke,1998 Drawn from a 20th century time frame these readings about management education cover a complexity of subjects The key event American managerial capitalism s rise to global hegemony occurred at mid century it focused the world s attention on American management education That story is told in numerous articles about the revolution in business education within the USA about the propagation of American managerial knowhow and its reception abroad But the readings also cover alternate forms of management education rooted in quite different capitalist systems of enterprise governance with emphasis especially on a German tradition that rivaled the American before 1940 and a Japanese that emerged internationally in the 1980s These readings relate not only how the alternative traditions in management education retained their vigor throughout the century but how those mid century predominant American views about management education are being challenged as the century ends in America itself
