Rainy Nights Ghost Town Volume 0:

The National standard, of literature, science, music [&c.] ed. by F.W.N. Bayley, Vol.1, no.1-vol.3, no.57 Frederick William N. Bayley, 1833 **Sensory Tourism** Ian S. Jenkins, Robert S. Bristow, 2024-11-13 Tourism offers countless global locations providing a multitude of sensory experiences. These include commercialised tourism products such as saunas and floatation tanks through to natural phenomenon such as mountains and wilderness destinations. Consequently sensory elements are a curious concept within tourism because every destination provides a sensory experience of one kind or another. The first of its kind this book examines holidays and tourism through sensory perceptions which either encourage or deter consumers. It studies sensoryscapes and how they effect and affect tourism at destinations and be linked with the development of tourist niches reflecting the segmenting of the mass market tourism into smaller segments. Finally it reflects on how with increased urbanisation there a growing need is to find quiet spaces free from urban or anthropogenic noise such as silent retreats and dark sky meditation holidays. Escape has always been one of the main components of tourism development together with attraction to spatial locations that match tourists needs. It will be of interest to those studying tourism management as well as wider social science disciplines.
