Radziemski,Marek Twardowski**

## Soviet Empire:

**The Rise of Russia and the Fall of the Soviet Empire** John B. Dunlop, 1995-04-23 This is the first work to set one of the great bloodless revolutions of the twentieth century in its proper historical context John Dunlop pays particular attention to Yeltsin's role in opposing the covert resurgence of Communist interests in post coup Russia and faces the possibility that new institutions may not survive long enough to sink roots in a traditionally undemocratic culture *The Rise and Fall of the Soviet Empire* Raymond Pearson, 2002-07-04 The Rise and Fall of the Soviet Empire describes and explains the creation, maintenance and eventual demise of the Soviet regime across post 1945 Eastern Europe Balancing internal factors such as resilient nationalism against external factors such as America's acceleration of the arms race Raymond Pearson sets the so-called Soviet Empire within the broader context of global imperialism and decolonisation Full coverage is also given to the dramatic episodes of Eastern Europe dissent and the chequered career of the ostensibly monolithic Soviet Empire This revised and updated second edition features an expanded final chapter on the Last Empire assessing not only its patent strengths and hidden weaknesses but also its much publicised vices and rarely acknowledged virtues New documentation that has only become available in the last five years has been incorporated to provide a fuller retrospective historical judgement on the Soviet regime across Eastern Europe *The Rise and Fall of the Soviet Empire* Dmitrii Antonovich Volkogonov, 1998 Following his great trilogy of biographies of the giants who dominated the history of the Soviet Union Stalin 1991 Lenin 1994 and Trotsky 1996 Dmitri Volkogonov delves deeper into the Soviet archives to produce new character evaluations and political assessments of the seven leaders who ruled the Soviet Union from 1917 to 1991 A former general in the Soviet Army's propaganda department Director of the Institute for Military History and Defence Adviser to President Yeltsin from 1991 to his death from cancer in December 1995 Dmitri Volkogonov had unrivalled access to Soviet military archives Communist Party documents and secret presidential files Basing his new book on these inside sources he has continued his pioneering work of revealing the truth behind the activities of the world's most secretive political leaders He throws new light on Lenin's paranoia about foreigners in Russia his creation of a privileged system for top Party members Stalin's repression of the nationalities and his singular conduct of foreign policy the origins and conduct of the Korean War Khrushchev's relationship with the odious secret service chief Beria Brezhnev's vanity and stupidity the Afghan War Poland and Solidarity Soviet bureaucracy Gorbachev's Leninism and role in history **Rollback!** Thomas Bodenheimer, Robert Gould, 1989 The first book to demonstrate how the Right operates not only within Republican administrations but in Democratic ones as well **The New Soviet Empire** David Julievič Dallin, 1951 **The Soviet Empire** Uri Ra'anani, 1990 Explores the revolution sweeping Eastern Europe and the Soviet Union Experts on the emergent national and democratic movements and on the countries affected examine the challenges that these movements pose to Gorbachev and the USSR as well as to the governing strata throughout Eastern Europe and China Annotation copyrighted by Book News Inc Portland OR

*The Soviet Empire, Prison House of Nations and Races* United States. Congress. Senate. Committee on the Judiciary, 1958

The Last Years of the Soviet Empire Vladimir Shlapentokh, Neil F. O'Donnell, 1993-05-30 Between 1985 and 1991 the Soviet Union was shaken to its core by a series of remarkable social and political developments. Throughout the period the eminent Sovietologist Vladimir Shlapentokh monitored the revolution and recorded his impressions in a series of essays which were published in major North American newspapers and periodicals. Here Shlapentokh collects these snapshots of current events that detail the progression of perestroika and glasnost. The essays and accompanying narrative form a kind of political diary reflecting not only the facts of history but the author's perspective as a Soviet Western observer. Each chapter focuses on a single year. The snapshots from that year are woven together with narrative describing the year's most important milestones including events in Moscow, results of new polls, new social trends and revelations in the Soviet mass media. Surprisingly Shlapentokh concludes that perestroika was not inevitable and that the Soviet Union was not as many scholars assert doomed to collapse. The author's unusual perspective is preserved throughout the book since none of the essays including those that predicted future events have been altered to more closely approximate events that actually took place. Recommended for scholars of sociology, political science and Soviet history.

*The Soviet Empire Reconsidered*

Sanford R. Lieberman, David E. Powell, Carol R. Saivetz, Sarah M. Terry, 2019-07-11 The demise of any empire provides an occasion for fresh examination of long-accepted truths about its history and its intrinsic nature. What set this particular empire apart from others? Why did it develop in the way that it did? Could events have taken a different path? What legacies has the empire left to its heirs? In this volume eminent scholars reflect on the unique and central features of the Soviet empire during its period of consolidation in Europe and speculate on the long-term effects of its collapse. They reconsider subjects that have absorbed Adam Ulam's attention in his own work: the ideologies of central planning, of totalitarianism and state terror at home and of intervention abroad, and explore their impact on the people who lived under Soviet power at its apogee. They also analyze the unraveling of the system on the domestic scene in elite and grassroots politics and in the international arena. Concluding chapters focus on the configuration of new domestic and foreign policies and on prospects for security and cooperation in the region.

**Russia and the USSR** Hamish Macdonald, Josh Brooman, 1994 Traces the causes and

consequences of the revolutions which transformed the Russian empire into the communist Soviet Union. Stalin, Lenin, Krushev

*Russian Empire* Jane Burbank, Mark von Hagen, A. V. Remnev, 2007-08-08 Perspectives on the strategies of imperial rule pursued by rulers, officials, scholars and subjects of the Russian empire. This book explores the connections between Russia's expansion over vast territories occupied by people of many ethnicities, religions and political experiences and the evolution of imperial administration and vision.

Warships of the Soviet Fleets 1939-1945 Przemyslaw Budzbon, Jan Radziemski, Marek Twardowski, 2022-10-30 Seventy-five years after the end of the Second World War the details of Soviet ships, their activities and fates remain an enigma to the West. In wartime such information was classified and after a brief

period of glasnost openness the Russian state has again restricted access to historical archives Therefore the value and originality of this work is difficult to exaggerate It sees the first publication of reliable data on both the seagoing fleets and riverine flotillas of the Soviet Navy listing over 6200 vessels from battleships to river gunboats and mercantile conversions as well as purpose built warships Divided into three volumes this first covers major surface warships down to MTBs and armored gunboats as well as submarines For every class there is a design history analyzing strategic tactical and technical considerations and individual ship detail includes construction yard key building dates commissioning fleet designations relocations and ultimate fate Once a closely guarded secret the wartime loss of every ship and boat over 1000 is described Furthermore the confusion caused by frequent name changes is clarified by indexes that run to 16 000 items By following the ships through both their wartime and earlier history the book reveals many aspects of Russian history that remain highly sensitive clandestine co operation with Weimar Germany and fascist Italy the NKVD enforced closure of Soviet borders the Gulag Fleet the faked Metallist sinking that excused the military occupation of Estonia and the ill conceived pact with Nazi Germany Restrictions recently imposed on historical publications in Russia mean this book could certainly not have been published there as proven by the fact that most of the authors Russian collaborators preferred not to disclose their identities This is undoubtedly one of the most important naval reference works of recent years and will be welcomed by anyone with an interest in warships the Soviet Navy or wider maritime aspects of the Second World War

#### The Russian Military

Resurgence René De La Pedraja,2018-11-21 The transition from the Soviet to the post 1991 Russian military is a fascinating story of decline and reinvention The Soviet army suffered a slow demise dissolving in 2000 and only gradually reforming based on radically different principles The First Chechnya War 1994 1996 was the lowest point for the Soviet military but the Second Chechnya War 1999 2004 saw the initial stirrings of the new Russian army The Five Day War with Georgia in August 2008 was its first major success and marked Russia s return to world power status Lively accounts and maps describe the actions of these wars along with the Crimea operation of 2014 the separatist struggles in eastern Ukraine and the ongoing Russian intervention in Syria

#### **The Rise and Fall of the Soviet Empire**

Brian Crozier,1999 For more than 80 years the Soviet Empire cast an ever lengthening shadow across the face of the world Lenin s ruthless legacy consumed Eastern Europe and toppled governments on virtually every continent Yet at the moment when the Empire appeared to have reached its zenith it collapsed like a house of cards Brian Crozier s definitive history of the Soviet Empire is a chilling account of an ideology that haunted our century Henry Kissinger In this seminal work the eminent British writer and historian Brian Crozier tells the brutal history of the Soviet Empire its birth life and sudden death The book begins at the beginning in 1917 when the oversized dreams of Lenin and the happenstance of events conspired to change the course of history In meticulous detail Crozier follows the Soviet conquests across Europe and into Asia Africa and the Western Hemisphere He uses recently declassified information from Soviet archives to add texture and depth to familiar parts of the story the betrayal at Yalta the

terror of Stalin the tragedy of Hungary the split with China the false hope of Prague Spring the rise of Castro the invasion of Afghanistan and the crumbling of the Berlin Wall Revealed along the way is the dark underside of a regime whose march toward supremacy resulted in the loss of tens of millions of lives The book concludes with reflections on the extraordinary disintegration of Lenin's utopia and the seemingly endless chaos left in its wake Provocative comprehensive and majestic in scope *The Rise and Fall of the Soviet Empire* is the definitive account of history's most turbulent days

**Military Strategy In Transition** Keith A. Dunn, 2019-03-07 Current NATO military strategy is based on the policy of flexible response that US and European politicians endorsed in 1967 for over 15 years no fundamental changes in NATO's defense strategy have occurred If NATO cannot stop a Warsaw Pact aggression conventionally it continues to threaten a gradual and controlled nuclear escalation of both theater and strategic nuclear weapons Many analysts now question the fundamental principles underlying NATO's policy and strategy given the enormous changes that have occurred in the strategic environment between 1967 and 1984 The contributors to this book examine the recent proposal by Samuel Huntington who advocates that NATO adopt a conventional counter retaliatory strategy based on offensive military actions deep into Eastern Europe In evaluating this new proposal the authors analyze the potential impact that it would have on US and NATO military doctrine assess probable European and Soviet reactions to NATO adopting a conventional counter retaliatory strategy and address the linkages existing between conventional and nuclear strategy In the final chapter the editors consider the policy strategy and force structure questions raised in the book and recommend policy options for the United States

**The Russian Empire** Sir Samuel Bagster Boulton (Bart.), 1882    **The Nation**, 1920    The history of Russia from the foundation of the empire to the war with Turkey in 1877-'78, by H. Tyrrell and H.A. Haukeil Henry Tyrrell (teacher of elocution.), 1879    **The Russian Empire** John Geddie, 1885    The Rise and Fall of the Soviet Empire Stephen Dalziel, 1993 An examination of the history of the Soviet Union from 1917 through the early 1990s

Getting the books **Soviet Empire** now is not type of inspiring means. You could not isolated going bearing in mind book accrual or library or borrowing from your links to admittance them.
