The Greek Orators

John Frederic Dobson

The Greek Orators:

The Greek Orators John Frederic Dobson, 1908-01-01 Oratory is one of the earliest necessities of society as soon as men were organised on terms of equality for corporate action there must have been occasions when opinions might differ as to the best course to be pursued and if there were no inspired king whose unquestioned authority could impose his will the majority must decide whether to flee or to fight to kill or to keep alive Thus different plans must be discussed and in cases where opinion was evenly balanced that side would prevail which could state its views most convincingly and so the need for deliberative oratory arose With the Greeks oratory was instinctive in the earliest semi historical records that we possess eloquence is found to be a gift prized not less highly than valour in battle the kings and princes are not only renowned for their power but are leaders of the people by their counsels wise and eloquent in their instructions strength and courage are the property of all but the real leaders must be the counsellors Nestor who is almost past the age for fighting is honoured among the first for his eloquence and whereas Achilles shares with many other warriors the glories of the Iliad Odysseus fertile in counsel is the chief subject of an entire poem The speech of Phoenix in the ninth book of the Iliad shows us the ideals which were aimed at in the education of a prince He tells how he trained the young Achilles to be a speaker of words and a doer of deeds and Achilles as we know him well justified this training The leading characters in the Homeric poems are already fluent orators able and ready to debate intelligently on any concrete subject and moreover to seek guidance from general principles Nestor makes frequent appeals to historical precedent Phoenix introduces allegorical illustration many speakers refer to the sanctity of law and custom though the particular case is foremost in the mind generalisations of various kinds are by no means infrequent The Homeric counsellor can urge his own arguments and rebut those of his opponent with a natural facility of speech and readiness of invective which even a polished wielder of personalities like Demosthenes might envy From the spontaneous outpourings of Achilles and his peers to the studied artifice of Lysias and Demosthenes is a long journey through unknown country and it is obvious that no definite course of development can be traced but a reference to Homer is of twofold importance In the first place it may indicate that Greek oratory was obviously of native growth since the germs of it are to be found in the earliest annals secondly Homer was studied with such devout reverence not only by the Athenian orators themselves but by their immediate literary predecessors the cosmopolitan Sophists and the rhetoricians of Sicily that his influence may have been greater than would at first sight seem probable **The Greek Orators** John

The Greek Orators J. F. Dobson,2015-06-25 Excerpt from The Greek Orators The object of this book is to provide a reasonably short account of the works of the Orators and to give a general idea of the style of each It seemed to me at the outset that this object could be best attained not by applying methods of scientific analysis but by giving numerous quotations from the speeches to emphasise the points which I wished to bring out I have therefore avoided as far as possible the technicalities of criticism and illustrated my remarks by translations of characteristic passages hoping thus to make my work easily accessible not only to classical students but also to others who while generally interested in the Classics have not the time or the capacity to study them in the original I have no idea of superseding the standard works on the subject such as Jebb's Attic Orators and Blass Attische Beredsamkeit which deal with the subject more fully and from a somewhat different point of view About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The Greek Orators (Classic Reprint) J.
