The Homosexualization Of America:

The Homosexualization of America Dennis Altman, 1983 Esta obra trata el tema de la homosexualidad poniendo énfasis en dos aspectos el surgimiento de los homosexuales como una nueva minoría con su propia cultura estilo de vida movimiento político y reivindicación de legitimidad y por otra parte el impacto de esta minoría en la sociedad de su entorno En un país donde la gente se identifica mediante referencias de etnicidad y religión no es sorprendente que los homosexuales se vean asimismo como un grupo étnico y pidan su reconocimiento Homosexuality and Government, Politics and Prisons Wayne R. Dynes, Stephen Donaldson, 1992 First published in 1993 Routledge is an imprint of Taylor Francis an informa company Forging Gay Identities Elizabeth A. Armstrong, 2002-12-15 Unlike many social movements the gay and lesbian struggle for visibility and rights has succeeded in combining a unified group identity with the celebration of individual differences Forging Gay Identities explores how this happened tracing the evolution of gay life and organizations in San Francisco from the 1950s to the mid 1990s *Gay Culture in America* Gilbert H. Herdt, 1992 Groundbreaking anthology exploring the cultural and developmental experiences of gay men in America today *Social Perspectives in Lesbian and Gay Studies* Peter M. Nardi, Beth E. Schneider, 2013-09-13 This comprehensive reader brings a social science perspective to an area hitherto dominated by the humanities Through it students will be able to follow the story of how sociology has come to engage with gay and lesbian issues from the 1950s to the present from the earliest research on the underground worlds of gay men to the emergence of queer theory in the 1990s Bringing together classic readings and the best work of younger scholars from all parts of the English speaking world this reader will be an invaluable resource for courses at undergraduate and graduate level in all areas of the sociology of sexuality and gender Separate sections cover theoretical foundations identity and community making institutions and social change challenges for the future Each section begins with an introduction giving readers a brief guide to the readings in that section contextualises them and relates them to one another and the book ends with an afterword by Ken Plummer summing up the present state of play and looking forward to the future From Gay to Queer Lasse Kekki, 2003 *The Case for Gay Rights* David A. J. Richards, 2005 As Americans wrestle with debates over traditional values defense of marriage and gay rights reason often seems to take a back seat to emotion In response legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy intimate life free speech tolerance and conscience that underpin these often heated debates The distillation of Richards's thirty year advocacy for the rights of gays and lesbians his book provides a reflective treatise on basic human rights that touch all of our lives He places in context two key Supreme Court cases the 1986 Bowers v Hardwick decision and the 2003 Lawrence v Texas decision which overturned it Drawing upon his own experiences as a gay man Richards interweaves personal observations with philosophical political judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys From publisher description **Homosexuality in Cold War**

America Robert J. Corber, 1997-05-22 Challenging widely held assumptions about postwar gay male culture and politics *Homosexuality in Cold War America* examines how gay men in the 1950s resisted pressures to remain in the closet Robert J. Corber argues that a form of gay male identity emerged in the 1950s that simultaneously drew on and transcended left wing opposition to the Cold War cultural and political consensus Combining readings of novels plays and films of the period with historical research into the national security state the growth of the suburbs and postwar consumer culture Corber examines how gay men resisted the organization man model of masculinity that rose to dominance in the wake of World War II By exploring the representation of gay men in film noir Corber suggests that even as this Hollywood genre reinforced homophobic stereotypes it legitimized the gay male gaze He emphasizes how film noir's introduction of homosexual characters countered the national project to render gay men invisible and marked a deep subversion of the Cold War mentality Corber then considers the work of gay male writers Tennessee Williams Gore Vidal and James Baldwin demonstrating how these authors declined to represent homosexuality as a discrete subculture and instead promoted a model of political solidarity rooted in the shared experience of oppression *Homosexuality in Cold War America* reveals that the ideological critique of the dominant culture made by gay male authors of the 1950s laid the foundation for the gay liberation movement of the following decade *Publikatiereeks Homostudies Utrecht*, 1988 *Muslims and American Popular Culture* Anne R. Richards, Iraj Omidvar, 2014-02-10 Offering readers an engaging accessible and balanced account of the contributions of American Muslims to the contemporary United States this important book serves to clarify misrepresentations and misunderstandings regarding Muslim Americans and Islam Unfortunately American mass media representations of Muslims whether in news or entertainment are typically negative and one dimensional As a result Muslims are frequently viewed negatively by those with minimal knowledge of Islam in America This accessible two volume work will help readers to construct an accurate framework for understanding the presence and depictions of Muslims in American society These volumes discuss a uniquely broad array of key topics in American popular culture including jihad and jihadis the hejab veil and burka Islamophobia Oriental despots Arabs Muslims in the media and mosque burnings Muslims and American Popular Culture offers more than 40 chapters that serve to debunk the overwhelmingly negative associations of Islam in American popular culture and illustrate the tremendous contributions of Muslims to the United States across an extended historical period **GLSG Newsletter for the Gay & Lesbian Study Group of the American Musicological Society**, 1999 **Visions of America** Douglas T. Women in America, 1984 Embracing a Gay Identity Wilfrid R. Koponen, 1993-07-30 This work presents a psychological analysis of the process of coming out for gay men in America since 1950. Koponen looks at the process as a series of steps in a hero's journey progressing from initial denial and anger to guilt bargaining and depression. The stages of acceptance and integration of a gay identity represent the goal of the quest. Providing the common ground on which to analyze the coming out process, Koponen uses gay male relationships portrayed in six important American novels: *Falconer* by John Cheever, *City of the Night* by John Rechy, *Giovanni's Room* by James Baldwin, *The Beautiful Room Is Empty* by Edmund White, *Dancer from the Dance* by Andrew Holleran, and *Taking Care of Mrs. Carroll* by Paul Monette. This book not only is literary study but also is intended to help gay men reflect on their shared lived experiences. Self-help exercises on identifying and examining the stages of coming out are provided throughout the analysis.

Inventing AIDS Cindy Patton, 1990 This book assesses the AIDS service industry that has emerged since the mid 1980s. Informed by deconstruction and current critical theory, Patton analyzes the discourses of AIDS and how they shape control and delay public policy that determines health strategies dealing with the epidemic. The book includes a committed and passionate critique of the use of scientific knowledge in the face of what is a predominant cultural metaphor of the late 20th century.

Sexuality and Gender in Society Janell L. Carroll, Paul Root Wolpe, 1996 An undergraduate text incorporating the 1994 NORC study on American sexuality and updates on contraceptive research and infertility techniques. Chapters on subjects including gender roles, biology, STDs, and AIDS and power and coercion contain learning aids such as Q-boxed features.

Metropolitan Lovers Julie Abraham, 2009 Exploring the lives of prominent gay men and women, literary depictions of gay city life, classic works of urban theory, and the rhetoric of political reformers, Abraham challenges conventional thinking about what it means to be metropolitan and what it means to be queer. From Paris, London, and Manchester to Los Angeles, Chicago, New York, and San Francisco, Abraham maps the connections, the exchanges of meaning, and the transfers of value that inform ideas of homosexuality and the city ideas that have shaped modern life. While the city and homosexuality have long been associated, Abraham analyzes their convergence with unprecedented insight and reveals the inescapable consequences, both positive and negative, of this union.
