Abortion and Sterilization Jane E. Hodgson, 2014-05-12 Abortion and Sterilization Medical and Social Aspects investigates the medical and social aspects of abortion and sterilization. Its aim is to legitimate abortion and sterilization for the sake of those who need and seek the service. The best techniques are presented in the proper medical perspective. The social and political history, epidemiology and public health aspects of abortion and sterilization are also discussed. Comprised of 23 chapters, this book begins with a review of abortion legislation and practices in historical perspective amidst changing sociocultural contexts in diverse geographic areas. Liberalization trends are surveyed chronologically in terms of selected highlights demonstrating legislative progress and frustrations along with advances in abortion technology. A classified listing of abortion statutes and/or court decisions in 140 countries is given. Subsequent chapters deal with the epidemiology of induced abortion, abortions for teenagers, the link between abortion and mental health, and hysterotomy and hysterectomy as abortion techniques. Vasectomy as a family planning option is also examined. This monograph is intended for students, teachers, clinicians, research workers, administrative and nursing personnel and those with interest in reproductive control.

Law Books in Print: Subject list J. Myron Jacobstein, Meira G. Pimsleur, 1976 **Act and Omission in Criminal Law** Roni Rosenberg, 2024-08-30 This book offers an innovative perspective on the critical distinction between acts and omissions in criminal law, a distinction that runs like a defining thread through all types of criminal offenses. While any act that positively causes a prohibited harm is sufficient for a conviction, an omission that causes the very same harm warrants a conviction only.

when there is a legal duty to act This fundamental distinction between acts and omissions is not just relevant to criminal law but it is also deeply rooted in our moral thinking Thus it is commonly argued that the difference between acts and omissions is also applicable to the intuitive moral distinction between active euthanasia forbidden in most countries and passive euthanasia permitted in many countries under certain circumstances Hence the significance of this book is threefold First it offers a comprehensive coherent and systematic discussion of the intersections between the philosophical moral and the legal criminal aspects of this fundamental topic Second it offers a novel rationale for the distinction between acts and omissions based on the principle of autonomy Finally it demonstrates the influences of the theoretical discussion on the most significant practical questions This book will be of interest to researchers academics and policy makers working in the areas of criminal law moral philosophy and bioethics

When corporations carry on their business in a grossly negligent manner or take a cavalier approach to risk management the consequences can be catastrophic The harm may be financial as occurred when such well regarded companies as Enron Lehman Brothers Worldcom and Barings collapsed or it may be environmental as illustrated most recently by the Gulf oil spill Sometimes deaths and serious injuries on a mass scale occur as in the Bhopal gas disaster the Chernobyl nuclear explosion the Paris crash of the Concorde the capsizing of the Herald of Free Enterprise and rail crashes at Southall Paddington and Hatfield in England What role can the law play in preventing such debacles and in punishing the corporate offenders This collection of thematic papers and European country reports addresses these questions at both a theoretical and empirical level The thematic papers analyse corporate criminal liability from a range of academic disciplines including law sociology criminology economics philosophy and environmental studies whilst the country reports look at the laws of corporate crime throughout Europe highlighting both common features and irreconcilable differences between the various jurisdictions
