helps theatre teaching artists develop connections between their pedagogical and artistic selves. The book presents a framework for thinking about the work of teaching artists in general and theatre teaching artists in particular. Through descriptive examinations of practice the book also provides theatre teaching artists and those who prepare and work beside them with concrete examples of three theatre education projects in three different educational settings as well as the collaborative processes that helped them succeed. Replicable in other settings such as community outreach programs, after school and summer programs hosted by professional theatres and not for profit educational theatres, these projects provide a jumping off point for others who work to create interesting theatre curriculum. In any educational setting theatre teaching artists create spaces where teachers and students can envision a new, different and exciting way of learning and doing that they can apply to theatre education and many other content areas. With emphasis on linking personal artistry with pedagogical artistry and examples drawn from McKean's own practice, *A Teaching Artist At Work* is an invaluable resource for teaching artists and the arts education community.
