Department of Transportation, 1995 Irregular news releases from the National Highway Traffic Safety Administration *Consumers Index to Product Evaluations and Information Sources*, 1996
Product Safety & Liability Reporter, 1995 *Bay City Telephone Directories*, 1989 *Cobra* Trevor Legate, 2006 This book tells the complex saga of a sports car that was created in the early 1960s as a result of an unlikely collaboration between a plain talking ex racing driver from Texas and a conservative British automobile manufacturer funded by one of the giants of the industry the Ford Motor Company Carroll Shelby AC Cars and Ford came together to create a car called the Cobra based on the AC Ace roadster that had been in production since 1954 When the Shelby Cobra was created it was far from state of the art but the use of a new series of Ford V8 engines saw the lightweight car annihilate the Chevrolet Corvette in American sports car racing By adding aerodynamic bodywork the Daytona Cobra Coupe arrived in Europe to contest the FIA World Championship and took victory in the GT category in 1965 making Shelby American the first and only USA based manufacturer to achieve this feat In order to capitalize on this success even greater power was required and the car was developed to take a huge 7 liter engine that proved to be a triumph of horsepower over handling thus the 427 Cobra became an overnight legend establishing new performance records and creating a reputation for being more than a little tricky to drive The era of the Cobra was brief production ended at Shelby American during 1966 and at AC Cars in 1968 where they built their own final version the AC289 Sports Just over 1000 Cobras were built during that time but the final cars proved difficult to sell their vintage qualities deterring potential owners Carroll Shelby closed his company and went to Africa while AC developed other models but the Cobra was not quite finished yet Within a matter of a few years a new market for the car was created as the demand for affordable kit cars grew The most popular model by far was the Cobra and many thousands were built with the result that both AC Cars and Carroll Shelby put their own versions back into production And then the arguments really started If it was an improbable car over forty years ago it is even more implausible today but the remarkable Cobra in one form or another is still with us It may be dead but it just won't lie down *Automobile Design Liability, 3d: Recalls* (2 v.)
