The Improbable Of Records:

Dissonant Identities Barry Shank, 2012-01-01 Music of the bars and clubs of Austin Texas has long been recognized as defining one of a dozen or more musical scenes across the country In *Dissonant Identities* Barry Shank himself a musician who played and lived in the Texas capital studies the history of its popular music its cultural and economic context and also the broader ramifications of that music as a signifying practice capable of transforming identities While his focus is primarily on progressive country and rock Shank also writes about traditional country blues rock disco ethnic and folk musics Using empirical detail and an expansive theoretical framework he shows how Austin became the site for a productive contestation between two forces the fierce desire to remake oneself through musical practice and the equally powerful struggle to affirm the value of that practice in the complexly structured late capitalist marketplace *The History of Music* Emil

Naumann, 1898 **Music Theory in the Age of Romanticism** Ian Bent, 1996-08-28 Twelve brilliant historians of theory probe the mind of the Romantic era in its thinking about music Congressional Record United States. Congress, 1984 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873* *Sound, Music, Affect* Marie Thompson, Ian

Biddle, 2013-03-14 *Sound Music Affect* features brand new essays that bring together the burgeoning developments in sound studies and affect studies The first section sets out key methodological and theoretical concerns focussing on the relationships between affective models and sound The second section deals with particular musical case studies exploring how reference to affect theory might change or reshape some of the ways we are able to make sense of musical materials The third section examines the politics and practice of sonic disruption from the notion of noise as prophecy to the appropriation of bad vibes for pleasurable aesthetic and affective experiences And the final section engages with some of the ways in which affect can help us understand the politics of chill relaxation and intimacy as sonic encounters The result is a rich and multifaceted consideration of sound music and the affective from scholars with backgrounds in cultural theory history literary studies media studies architecture philosophy and musicology
