Marcel Ohanga, Mwashita, Weston, 2022-03-04 As the internet of things market is booming several issues are delaying the full
realization of the technology Currently business competitors are jockeying for a piece of the market meaning solutions from
researchers that address these issues is crucial for internet of things technology developers Overpromising followed by
underdelivering has been the current approach by many innovators and the mismatch results in losses in production
orphaned technologies and frequent system failures Solutions that address internet of things performance issues must be
studied in order to take full advantage of this emerging market Achieving Full Realization and Mitigating the Challenges of
the Internet of Things addresses the challenges faced in rolling out internet of things technologies as well as the various
performance issues Covering a range of topics such as cybersecurity and connectivity issues this reference work is ideal for
industry professionals academicians researchers practitioners technology developers instructors and students *Redefining
Education and Development* Kaitano Dube, 2024-10-18 The book aligns with the United Nations Sustainable Development
Goals SDGs particularly Goal 4 which focuses on quality education It explores the evolving role of education as a critical
driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster
sustainable development The book takes an interdisciplinary approach merging educational theory developmental practice
and human psychology to address complex global challenges hindering sustainable development The book includes case
studies and empirical research such as exploring student entrepreneurship in the agricultural sector and the factors bridging
the gap between entrepreneurial intention and venture creation These examples provide readers with practical applications
of theoretical concepts and demonstrate the real world impact of educational innovations which is at the core of education
delivery for all and how education touches on other areas of the SDGs The book offers valuable insights for policymakers
educators and development practitioners by presenting research and theory based analyses It suggests ways to improve the
academic environment to foster entrepreneurship and innovation which are key to economic development and job creation
especially in regions with high youth unemployment rates The content suggests educational reforms that are responsive to
the changing societal and economic landscapes The book's blend of theory and practice targets a broad audience including

academic scholars students development agencies non governmental organisations and policymakers It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development In summary the book seeks to provide a comprehensive exploration of the nexus between education development and human needs in the context of the SDGs offering innovative perspectives and practical solutions to equip readers to contribute to sustainable global development
