*Energy Research at DOE* National Research Council, Division on Engineering and Physical Sciences, Board on Energy and Environmental Systems, Committee on Benefits of DOE R&D on Energy Efficiency and Fossil Energy, 2001-12-12 In legislation appropriating funds for DOE's fiscal year FY 2000 energy R&D budget the House Interior Appropriations Subcommittee directed an evaluation of the benefits that have accrued to the nation from the R&D conducted since 1978 in DOE's energy efficiency and fossil energy programs. In response to the congressional charge the National Research Council formed the Committee on Benefits of DOE R&D on Energy Efficiency and Fossil Energy. From its inception DOE's energy R&D program has been the subject of many outside evaluations. The present evaluation asks whether the benefits of the program have justified the considerable expenditure of public funds since DOE's formation in 1977 and unlike earlier evaluations it takes a comprehensive look at the actual outcomes of DOE's research over two decades.
