**The Shaman and the Heresiarch** Gopal Sukhu,2012-09-01 The first book length study in English of the Chinese classic the Li sao Encountering Sorrow Includes translations of the Li sao and the Nine Songs The Li sao also known as Encountering Sorrow attributed to the poet statesman Qu Yuan 4th3rd century BCE is one of the cornerstones of the Chinese poetic tradition It has long been studied as Chinas first extended allegory in poetic form yet most scholars agree that there is very little in the two thousand year old tradition of commentary on it that convincingly explains its supernatural flights its complex floral imagery or the gender ambiguity of its primary poetic persona The Shaman and the Heresiarch is the first book length study of the Li sao in English offering new translations of both the Li sao and the Nine Songs The book traces the shortcomings of the earliest extant commentary on those texts that of Wang Yi

European invasion No generalization can hold true for all the classical poems of North American Indians They spring from thirty thousand years of experience five hundred languages and dialects and ten linguistic groups and general cultures But the poems from these different cultures and languages belong to poetry unified by similar experiences and a shared continent Built on early transcriptions of Native American songs and arranged by subject these poems are informed by additional context that enables readers to appreciate more fully their imagery their cultural basis and the moment that produced them They let us look at our continent through the eyes of a wide range of people poets hunters farmers holy men and women and children This poetry achieved its vividness clarity and intense emotional power partly because the singers made their poems for active use as well as beauty and also because they made them for singing or chanting rather than isolated reading Most strikingly classical North American Indian poetry brings us flashes of timeless vision and absolute perception a gulfs wing red over the dawn snow capped peaks in the moonlight a death song Flowing beneath them is a powerful current the urge to achieve a selfless attention to the universe and a determination to see and delight in that universe on its own terms   **Encyclopedia of Native American Shamanism** William S.
