McInery**, 1963 The Soul's Voyage To Love's Crescendo Vipul Goyal, 2024-10-04 As the author of The Soul's Voyage to Love's Crescendo I invite you on an extraordinary journey a journey that unravels the essence of love in its myriad forms and explores the profound depths of human emotions Within the pages of this book you will encounter the various faces and phases of love from its tender beginnings to its turbulent storms and its ultimate crescendo This collection inspired by personal experiences and heartfelt emotions delves into the intricate complexities of love unveiling its beauty and pain its joys and sorrows Through my own love story where I encountered heartache and loss I hope to illuminate the power of love's transformative nature and the resilience of the human spirit Through poetic verses I aspire to touch your soul remind you of the universal language of love and inspire you to embrace love's journey with an open heart and a profound appreciation for its transformative power This book is a testament to the magic and vulnerability of love and an invitation to embark on a voyage that transcends time and touches the very core of our existence The Soul's Upward Yearning Robert Spitzer, S.J., Ph.D., 2015-10-03 Western culture has been moving away from its Christian roots for several centuries but the turn from Christianity accelerated in the 20th century At the core of this decline is a loss of a sense of our own transcendence Scientific materialism has so seriously impacted our belief in human transcendence that many people find it difficult to believe in God and the human soul This anti transcendent perspective has not only cast its spell on the natural sciences psychology philosophy and literature it has also

negatively impacted popular culture through the writings of Richard Dawkins Daniel Dennett and many others The warning signs of this loss of transcendence have been expressed by thinkers as diverse as Carl Jung psychiatrist Mircea Eliade historian of religion Gabriel Marcel philosopher C S Lewis and J R R Tolkien These warnings were validated by a 2004 study in the American Journal of Psychiatry which showed that the absence of religion alone was responsible for a marked increase in suicide rates sense of meaningless substance abuse separation from family and other psychiatric problems Thus the loss of transcendence is negatively affecting not only individuals sense of happiness dignity ideals virtues and destiny but also the culture Ironically the evidence for transcendence is greater today than in any other period in history The problem is this evidence has not been compiled and propagated Fr Spitzer s book provides a bright light in the midst of this cultural darkness by presenting both traditional and contemporary evidence for God and a transphysical soul from several major sources He also shows how human consciousness and intelligence is completely special and cannot be replicated by artificial intelligence or animal consciousness We are transcendent beings with souls capable of surviving bodily death self reflective beings aware of perfect truth love goodness and beauty We are beings with an unrestricted capacity to know and create science law culture art music literature and so much more The evidence reveals that we have the dignity of being created in the very image of God and if we underestimate it we will undervalue one another underlive our lives and underachieve our destiny This work is the most comprehensive treatment of human transcendence available today
