**Tanks for the Memories** John Cunningham Lilly, E. J. Gold, 1995 A definitive series of talks by two acknowledged masters of consciousness exploration on uses of the flotation tank     **The Trascendental Experience** AA. VV., 2020-08-06 The Transcendental Experience that which evidences the continuity of the spirit beyond the physical death of the body has been the objective around which from historical times various mystical schools were organized Ascesis on the other hand is the particular path that each one of them developed as a proposal to achieve such experience Silo 1938 2010 who referred to himself as a writer and practitioner of what he called an inner religiosity promoted a proposal of simultaneous spiritual and social change to advance towards the formation of a Universal Human Nation In the field of spirituality he affirms that there is no meaning in life if everything ends with death dedicating his writing of The Inner Look 1989 to this theme and on the other hand in his Psychology Notes 2006 he explains the possibility of suspension and suppression of one's own I in order to make contact with another state or level of consciousness that he designates as The Profound He then suggests a first stage of leveling previous to the realization of one of four Disciplines that he developed mental energetic material and morphological as previous steps to an Ascesis that defines as a path of all life which tends to overcome the Self to enter the deep spaces of the Sacred The authors of this book compiled and ordered the conclusions of more than one hundred men and women from different countries who are part of the several thousands who have followed Silo's teachings and the methodology proposed here uses the advantages of relaxation and concentration that a Sensory Suppression Chamber has as well as the possibilities provided by the team work in order to accelerate the Ascesis     **Escape Philosophy** Roy

Christopher, 2022 The physical body has often been seen as a prison as something to be escaped by any means necessary technology mechanization drugs and sensory deprivation alien abduction Rapture or even death and extinction Taking in horror movies from David Cronenberg and UFO encounters metal bands such as Godflesh ketamine experiments AI and cybernetics Escape Philosophy is an exploration of the ways that human beings have sought to make this escape to transcend the limits of the human body to find a way out As the physical world continues to crumble at an ever accelerating rate and we are faced with a particularly 21st century kind of dread and dehumanization in the face of climate collapse and a global pandemic Escape Philosophy asks what this escape from our bodies might look like and if it is even possible     **The Word**

**for Woman Is Wilderness** Abi Andrews, 2019-03-19 This is a new kind of nature writing one that crosses fiction with science writing and puts gender politics at the center of the landscape Erin a 19 year old girl from middle England is traveling to Alaska on a journey that takes her through Iceland Greenland and across Canada She is making a documentary about how men are allowed to express this kind of individualism and personal freedom more than women are based on masculinist ideas of survivalism and the shunning of society the Mountain Man She plans to culminate her journey with an experiment living in a cabin in the Alaskan wilderness a la Thoreau to explore it from a feminist perspective The book is a

The present framing of the cultural debate in terms of materialism versus religion has allowed materialism to go unchallenged as the only rationally viable metaphysics This book seeks to change this It uncovers the absurd implications of materialism and then uniquely presents a hard nosed non materialist metaphysics substantiated by skepticism hard empirical evidence and clear logical argumentation It lays out a coherent framework upon which one can interpret and make sense of every natural phenomenon and physical law as well as the modalities of human consciousness without materialist assumptions According to this framework the brain is merely the image of a self localization process of mind analogously to how a whirlpool is the image of a self localization process of water The brain doesn t generate mind in the same way that a whirlpool doesn t generate water It is the brain that is in mind not mind in the brain Physical death is merely a de clenching of awareness The book closes with a series of educated speculations regarding the afterlife psychic phenomena and other related subjects [\*\*The Cumulative Book Index\*\*](#) ,1996 A world list of books in the English language [\*\*American Book Publishing Record\*\*](#) ,1996 [\*\*The Prevention How-to Dictionary of Healing Remedies and Techniques\*\*](#) Prevention Magazine,1994-04
