Tantra In Bengal A Study In Its Origin Development And Influence:

Tantra in Bengal Sures Chandra Banerji, 1977 **Tantra in Practice** David Gordon White, 2000 Tantra in Practice is the eighth volume of Princeton Readings in Religions and the first substantial anthology of Tantric works ever to appear in English. The thirty-nine contributors drawn from around the world are leading scholars of Tantra. Each contributor has provided a translation of a key work in most cases translated here for the first time. Each chapter in the volume begins with an introduction in which the translator discusses the history and influence of the work identifying points of particular difficulty or interest. David White has provided a general introduction to the volume that serves as an ideal guide to the riches contained between the covers of this book. He has organized the volume thematically providing fascinating juxtapositions of works from different regions, periods, and traditions. Two additional tables of contents are provided organizing the works by tradition and by country of origin. The range of works represented here is remarkable, spanning the continent of Asia and the traditions of Hinduism, Buddhism, Jainism, and Islam over more than a millennium. With the publication of this volume, the long-disparaged and neglected Tantric traditions of Asia receive the attention they so rightly deserve. This is a groundbreaking work.

The Rādhā Tantra Mans Broo, 2016-10-26 The Rādhā Tantra is an anonymous 17th-century tantric text from Bengal. The text offers a lively picture of the meeting of different religious traditions in 17th-century Bengal since it presents a version of the famous Vaiṣṇava story of Rādhā and Kṛṣṇa. This book presents a critically edited text of the Rādhā Tantra based on manuscripts in India, Nepal, and Bangladesh, as well as an annotated translation. It is prefaced by an introduction that situates the text in its social and historical context and discusses its significance. The introduction also looks at the composition and metrics, vocabulary, and grammar and contents and doctrine of the text. It also includes a discussion of the extensive intertextualities of the Rādhā Tantra as well as the sources used for this edition. The Sanskrit text is in Roman transliteration following the standard IAST system, is then presented followed by an English translation of the text. This book will be of interest to scholars of South Asian Religion, Tantric Studies, and Religious History.

Introducing Hinduism Hillary P. Rodrigues, 2023-01-06 Introducing Hinduism, 2nd Edition is the ideal sourcebook for those seeking a comprehensive overview of the Hindu tradition. This second edition includes substantial treatments of Tantra, South India, and women, as well as expanded discussions of yoga, Vedānta, and contemporary configurations of Hinduism in the West. Its lively presentation features case studies, photographs, and scenarios that invite the reader into the lived world of Hinduism. Introductory summaries, key points, discussion questions, and recommended reading lists at the end of each chapter; narrative summaries of the great epics and other renowned Hindu myths; and lucid explanations of complex Indian philosophical teachings, including Sāṃkhya and Kashmiri Śaivism, and a glossary, timeline, and pronunciation guide for an enhanced learning experience. This volume is an invaluable resource for students in need of an introduction to the key tenets and diverse practice of Hinduism, past and present.

Occult Roots of Religious Studies Yves Mühlematter, Helmut Zander, 2021-06-08 The

historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first through the establishment of comparative philological and sociological methods and secondly through the demand for intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories took time and only happened later One example concerning the early entanglement is Tibetology where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society Similarly the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin In this perspective it is not only the history of religious studies which must be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas **Change, Continuity and**
