Tanzania's Human Revolution:

Tanzania's Human Revolution James N. Kariuki, 1979 In Tanzania this book argues the centrality of mankind is not a mere abstract ideal it is embedded in the philosophy policies and programs of the nation A major role of Tanzania's political leaders especially Julius Nyerere is to guarantee that the society and the state maintain a humane commitment Tanzania's Human Revolution concludes that developments in this young African nation whether social political or economic are understandable only in the context of its value system The author thus takes issue with previous studies particularly those focusing on mechanics and processes while overlooking a pervasive humanism Tanzania's brand of democratic socialism emphasizes cooperative agricultural villages and mass education Although foreign investments are permitted in Tanzania in a limited way urbanization and heavy industry are discouraged until the achievement of Self Reliance the watchword of the country's one party the Tanganyika African National Union Schooling combines the practical with the liberal and graduates of colleges or terminal secondary schools are required to work for two years in the rural areas Political decisions often benefit from village and neighborhood deliberations before becoming regional and national policies Tanzanian citizenship is open to all races and both English and Kiswahili are official languages About one third of the population is Christian the rest espousing either Islam or one of the indigenous religions Nyerere epitomizes Tanzania's heterogeneity the son of a tribal chief he holds an Edinburgh MA is a converted Roman Catholic and takes pride in being a lifelong patriot By its steadfast opposition to all forms of inhumanity including racism together with its correct yet independent relations with all other countries including the United States and China Tanzania has become a moral force in Africa and the world Tanzania Andrew Coulson, 2013-07-25 Tanzania in the 1970s was at the forefront of policy innovation Near universal primary education access to health services and supplies of clean water subsequently became mainstream ambitions in Africa and elsewhere But its policies towards agricultural and industrial production failed and left the country in a particularly weak position when it faced the demands of structural adjustment in the 1980s This book originally published in 1982 has been reissued with a new introduction which brings its themes up to the present when income from gold mining and natural gas is making Tanzania one of the most dynamic economies in Africa today The author first an economic civil servant in Tanzania later an academic at the University of Dar es Salaam was in a unique position to write it drawing on his own experiences as well as the plethora of ideas and debates in Dar es Salaam in the 1970s The book has stood the test of time not only because of the range of material it covers but more profoundly because of the approach it takes to the work of Tanzania's founding president Julius Nyerere sympathetic to his ideas deeply critical of failures in implementation 25 short easily read chapters take the story of Tanzania from pre colonial times to the present and show how Nyerere was hemmed in by what he inherited from the German and British colonialists who ran the country up to Independence in 1961 It provides an invaluable introduction to anyone coming to the country for the first time and offers a profound assessment of the theoretical debates

that have made Tanzania of such interest to students of development **Tanzania and the Liberation Struggle in Southern Africa, 1958-1975** Azaria Mbughuni.,2006 **Soviet Collectivization and Tanzanian Villagization** Simon Kenyanchui,1982 **African Theatre and Politics: The evolution of theatre in Ethiopia, Tanzania and Zimbabwe** Jane Plastow,2023-01-30 This study the first book length treatment of its subject draws on a large base of elusive material and on extensive field research It is the result of the author s wide experience of teaching and producing theatre in Africa and of her fascination with the ways in which traditional performance forms have interacted with or have resisted non indigenous modes of dramatic representation in the process of evolving into the vital theatres of the present day A comparative historical study is offered of the three national cultures of Ethiopia Tanganyika Tanzania and Rhodesia Zimbabwe Not only scripted drama is treated but also theatre in the sense of the broader range of performance arts such as dance and song The development of theatre and drama is seen against the background of centuries of cultural evolution and interaction from pre colonial times through phases of African and European imperialism to the liberation struggles and newly won independence of the present The seminal relationship between theatre society and politics is thus a central focus Topics covered include the function in theatre of vernacular and colonial languages performance forms under feudal communalist and socialist r gimes cultural militancy and political critique the relationship of theatre to social lites and to the peasant class state control funding and censorship racism and separate development in the performing arts contemporary performance structures amateur professional community and university theatre Due attention is paid to prominent dramatists theatre groups and theatre directors and the author offers new insight into African perceptions of the role of the artist in the theatre as well as dealing with the important subject of gender roles in drama in performance ritual and in theatre practice The book is illustrated with contemporary photographs Africa Air University (U.S.). Library,1980 Jah Kingdom Monique A. Bedasse,2017-08-11 From its beginnings in 1930s Jamaica the Rastafarian movement has become a global presence While the existing studies of the Rastafarian movement have primarily focused on its cultural expression through reggae music art and iconography Monique A Bedasse argues that repatriation to Africa represents the most important vehicle of Rastafari s international growth Shifting the scholarship on repatriation from Ethiopia to Tanzania Bedasse foregrounds Rastafari s enduring connection to black radical politics and establishes Tanzania as a critical site to explore gender religion race citizenship socialism and nation Beyond her engagement with how the Rastafarian idea of Africa translated into a lived reality she demonstrates how Tanzanian state and nonstate actors not only validated the Rastafarian idea of diaspora but were also crucial to defining the parameters of Pan Africanism Based on previously undiscovered oral and written sources from Tanzania Jamaica England the United States and Trinidad Bedasse uncovers a vast and varied transnational network including Julius Nyerere Michael Manley and C L R James revealing Rastafari s entrenchment in the making of Pan Africanism in the postindependence period Umoja ,1980 **Daily Report, Foreign Radio Broadcasts** United States.
