Taoiseach The:

The Taoiseach Iain Dale, 2025-10-23 It's one of those books that you can either read chronologically from front to back cover or dip in and out of at leisure. It should keep many a dad happily occupied over Christmas. The Irish Independent Ireland under both the Irish Free State and after full independence has now had just over 100 years of autonomous national political leadership. This book based on Iain Dale's blockbuster podcast tells the story of Irish politics over the past century by examining the lives and actions of each Irish Taoiseach from W. T. Cosgrave to Micheál Martin. 15 leading Irish historians, journalists and politicians write essays on each of these figures showing in the process how Ireland developed from a poor ex-colony to a successful modern country at the heart of the European Union. In the process the contributors examine the importance of topics such as the power of the Roman Catholic Church, changing social mores, Ireland's relationship with the UK and its economic development. This is a must-read for anyone interested in Irish politics at a time of potential far-reaching change for the republic. John A. Costello: The Reluctant Taoiseach David McCullagh, 2010-10-08 John A. Costello remains the most elusive of our former Taoisigh despite his enormous contribution to Irish history. He declared the Republic, led the country's first ever coalition government and faced the Mother and Child Crisis. A surprise choice who battled against taking the job, Costello was the Reluctant Taoiseach. Historian and political correspondent David McCullagh charts the life of this fascinating man using his personal archive of papers as well as interviews with former colleagues, family and friends. McCullagh offers new insights into a political career which stretched from Independence to the end of the 1960s, including the Commonwealth Conferences of the 1920s to the new Constitution of 1937 and Governments in the 1940s and 1950s. Politician, barrister, Attorney General, politician, family man: The Reluctant Taoiseach takes a fresh and revealing look at the life of a man at the centre of politics and law during one of the most turbulent periods in Irish history. *The Functions of the Department of the Taoiseach* M. Brian Farrell, 1971 **The Dominions and India Since 1900** A. F. Madden, David Kenneth Fieldhouse, John Darwin, 1993-12-30 The sixth volume in Greenwood's ongoing series, this book is the first of three fine volumes to cover the twentieth century and the last stages in decolonization of the British Empire. It is concerned with the original five Dominions, the apparently inappropriate association

of the Irish Free State with those Dominions and the similarly anomalous status of India the first non European dependency and the first republic to secure full membership in the Commonwealth and to make it a multiracial association The book documents the evolution of changes in and rise and fall of that Commonwealth association the shifts in the balance of powers within the Canadian and Australian federations the fulfillment of union in South Africa and Ireland the coherence emerging in New Zealand the bankruptcy in Newfoundland and the separation of India and Pakistan Two forthcoming volumes will deal with the colonies protectorates and mandates in the twentieth century **Ireland** ,1996 **Petroleum Review** ,1986
