Taped Exercises for Basic and Intermediate Italian Armando DiCarlo, Romana Habekovic, 2000-08-11 The objective of Taped Exercises is to develop and enhance the audio oral skills of beginning and intermediate foreign language students The material presented in each unit is intended as a supplement to any basic or intermediate Italian course The exercises foster listening comprehension and aim at increasing oral proficiency These listening exercises are meaningful and are conducted in a way that allows students to have a clear perception of content and form An important feature of the following taped exercises is that each unit contains a self evaluative device not commonly found in commercial laboratory manuals or textbooks The exercises can be used either for self study or under the guidance of an instructor They can be implemented whenever extra aural oral practice is needed The exercises are also appropriate for refresher courses
