Tar Heel Politics 2000:

The New Politics of the Old South Charles S. Bullock III, Mark Rozell, 2021-09-27 Now in its seventh edition The New Politics of the Old South is the best and most comprehensive analysis and history of political behaviors and shifting demographics in America's southern states Edited by leading scholars Charles S Bullock III and Mark J Rozell this book has been updated through the 2020 elections to provide the most accurate and useful snapshot of the state of southern politics and the ways in which they have developed over time The southern electorate is a fascinating dynamic body politic and the study of its evolution is paramount to understanding the broader political developments occurring at a national level While accessible to any interested reader this edition illuminates the South's essential and growing role in the study and the story of American politics This new edition addresses the change in the organization of the states chapters from Deep South and Rim South to instead growth states and stagnant states and focuses on how the main divisions among the southern states now impacting their politics are economic and population growth

Tar Heel Politics 2000 Paul Luebke, 1998 Offering an insightful analysis of North Carolina political trends and personalities Paul Luebke moves beyond the usual labels of Republican and Democrat conservative and liberal In Tar Heel Politics 2000 he argues that North Carolina's real po

The Rise of Southern Republicans Earl BLACK, Merle Black, Earl Black, 2009-06-30 The transformation of Southern politics over the past fifty years has been one of the most significant developments in American political life The emergence of formidable Republican strength in the previously solid Democratic South has generated a novel and highly competitive national battle for control of Congress Tracing the slow and difficult rise of Republicans in the South over five decades Earl and Merle Black tell the remarkable story of political upheaval The Rise of Southern Republicans provides a compelling account of growing competitiveness in Southern party politics and elections Through extraordinary research and analysis the authors track Southern voters shifting economic cultural and religious loyalties black white conflicts and interests during and after federal civil rights intervention and the struggles and adaptations of congressional candidates and officials A newly competitive South the authors argue means a newly competitive and revitalized America The story of how the South became a two party region is ultimately the story of two party politics in America at the end of the twentieth century Earl and Merle Black have written a bible for anyone who wants to understand regional and national congressional politics over the past half century Because the South is now at the epicenter of Republican and Democratic strategies to control Congress The Rise of Southern Republicans is essential to understanding the dynamics of current American politics

Reviews of this book These two leading scholars of Southern politics

present a rigorous investigation of how voting in the peripheral South Florida Arkansas Texas North Carolina Virginia and Tennessee and the Deep South Georgia Louisiana Mississippi Alabama and South Carolina was realigned since Ronald Reagan was first elected president in 1980 Karl Helicher Library Journal With publication of their latest book *The Rise of Southern Republicans* the Blacks both 60 have produced a trilogy that traces an almost geologic style evolution in the South's political landscape They've analyzed the whys and what fors of a region that in the past 50 years has gone from impenetrably Democratic to competitively Republican Their overarching conclusion the two party warfare that defines the South defines the nation The Blacks work a mix of political wonkery and historical perspective cut with the deliciously illuminating anecdote is read by academics in various disciplines and political junkies of all stripes The books are valued for their coolly dissecting insights Because their writing swells beyond the data crunching lab work of most political scientists though new readers beware The books are littered with scary looking charts and graphs it travels beyond academia Party strategists are steeped in the work The Blacks wrote the book on how academic political science can illuminate practical politics says Republican pollster Whit Ayers Drew Juber Atlanta Journal Constitution The South's political identity has been transformed in the last half century from a region of Democratic hegemony to a region of Republican majority Earl and Merle Black sedulously examine this remarkable change This is a work of serious scholarship that lacks any hint of a partisan purpose Committed readers will increase their understanding of both Southern and national politics The Blacks effort may well be the definitive statement on Southern politics over the 20th century Publishers Weekly Not since 1872 Earl Black and Merle Black point out in their third book on Southern politics had the Republicans constructed majorities from both the North and the South in both houses and it was the national character of their victory that made the 1994 election such a landmark In *The Rise of Southern Republicans* the Black brothers chronicle the party's history from the 1930s to the present election by election They illuminate the economic racial and political dynamics that gradually moved the South toward the Republican Party while also warning that the Republicans do not by any means own the region in the way the Democrats once did Kevin Sack New York Times Book Review In *The Rise of Southern Republicans* brothers Earl and Merle Black explain the partisan realignment that has brought the South into the national political mainstream The Blacks focus most of their attention on the congressional arena where voting patterns reflect long term partisan loyalty more closely than at the presidential level The story the authors of *The Rise of Southern Republicans* tell is a fascinating one with implications for American politics that are both profound and uncertain David Lowe Weekly Standard The rise of southern Republicans is one of the most consequential stories in modern American politics For political reporters of a certain generation the Democratic dominance of Southern congressional politics is barely understood The Black brothers make it all very clear Major Garrett Washington Monthly This superb analysis of Southern politics by Earl Black and his brother Merle Black not only tracks the recent rise of Republicans in the South but explains why party realignment along ideological lines was so long in coming to

that region The Rise of Southern Republicans is already being rightly hailed as a political science classic Its strength is the thorough and systematic manner in which it examines the changing ways a wide variety of factors have affected Southern voting patterns over the past four decades The data and the rigor of the analysis are truly impressive James D Fairbanks Houston Chronicle This extraordinary book by the country s two leading scholarly experts on the politics of the American South could accurately have been titled Everything you wanted to know about Southern politics as well as everything you could ever imagine asking about it Their knowledge of the intricacies of particular congressional districts across the region is amazing and their analysis of the larger partisan trends in the region makes this the most important book on Southern politics Stephen J Farnsworth Richmond Times Dispatch The Black brothers have done it again The Rise of Southern Republicans is without question the most important book ever written on the role of the South in Congress and the partisan consequences for our national legislature Far and away the most comprehensive updating of the V O Key classic Southern Politics This is a major work by extremely talented scholars Charles S Bullock University of Georgia The dramatic rise of the Republican Party in the South is the single most important factor in the transformation of American politics since the 1960s Earl and Merle Black have described this process in a book that is witty always filled with insight and readable to the last page The Rise of Southern Republicans is indispensable reading for anyone interested in American politics past present or future Dan T Carter author of The Politics of Rage George Wallace the Origins of the New Conservatism and the Transformation of American Politics This marvelous book captures with authority and readability the big story of post New Deal party politics in the United States It is a surefire classic of political science and politics Richard F Fenno Jr author of Congress at the Grassroots Representational Change in the South 1970 1998 [The Triumph of Voting Rights in the South](#) Charles S. Bullock, Keith Gaddie, 2014-10-22 The Voting Rights Act of 1965 achieved what two constitutional amendments and three civil rights acts could not giving African Americans in the South access to the ballot free from restriction or intimidation The most exhaustive treatment of elections and race in the region in sixty years The Triumph of Voting Rights in the South explores the impact of that landmark legislation and highlights lingering concerns about minority political participation In this state by state assessment Charles S Bullock III and Ronald Keith Gaddie show how minorities have become politically empowered thanks to the act particularly its Section 5 provision which requires jurisdictions that have had low levels of minority voting to obtain federal clearance before altering election laws Blending data and anecdote the authors demonstrate how minority participation in politics has improved as measured by voter registration and turnout election of African Americans to political office and minorities success in electing preferred candidates Eleven southern states are discussed including Arkansas and Tennessee where Section 5 was not implemented and Florida and Texas where the act takes into account Latino participation Concluding chapters offer a comparative assessment of voting rights progress across the South explore the political by products of the act and analyze the 2008 election of President Barack Obama in light of

wider access to the polls The authors also discuss whether Section 5 set to expire in 2031 will be needed any longer Political scientists historians students and all those interested in southern politics and minority voting rights will find this study rich in information and insight as it shows how race and party interact in the modern South **Tar Heel Politics** Paul

Luebke,1990 Discusses the conflict between change and tradition in North Carolina and looks at the major issues facing the state **The New Politics of the Old South** Mark J. Rozell,2003 One of the most important developments in American

politics has been the growing prominence of the Southern states in the national political landscape The first edition of The New Politics of the Old South broke new ground by examining Southern political trends at the end of the twentieth century Now extensively revised and updated the second edition looks toward the future of politics in the South and continues the unique state by state analysis of political behavior written by the country s leading scholars of Southern politics Designed to be adopted for courses on Southern political culture but accessible to any interested reader this book traces the shifting trends of the Southern electorate and explains its growing influence on the course of national politics **New Voyages to**

Carolina Larry E. Tise,Jeffrey J. Crow,2017-09-14 New Voyages to Carolina offers a bold new approach for understanding and telling North Carolina s history Recognizing the need for such a fresh approach and reflecting a generation of recent scholarship eighteen distinguished authors have sculpted a broad inclusive narrative of the state s evolution over more than four centuries The volume provides new lenses and provocative possibilities for reimagining the state s past Transcending traditional markers of wars and elections the contributors map out a new chronology encompassing geological realities the unappreciated presence of Indians blacks and women religious and cultural influences and abiding preferences for industrial development within the limits of progressive politics While challenging traditional story lines the authors frame a candid tale of the state s development Contributors Dorothea V Ames East Carolina University Karl E Campbell Appalachian State University James C Cobb University of Georgia Peter A Coclanis University of North Carolina at Chapel Hill Stephen Feeley McDaniel College Jerry Gershenhorn North Carolina Central University Glenda Elizabeth Gilmore Yale University Patrick Huber Missouri University of Science and Technology Charles F Irons Elon University David Moore Warren Wilson College Michael Leroy Oberg State University of New York College at Geneseo Stanley R Riggs East Carolina University Richard D Starnes Western Carolina University Carole Watterson Troxler Elon University Bradford J Wood Eastern Kentucky University Karin Zipf East Carolina University **Anatomy of a Purple State** Christopher A. Cooper,2024-10-09 North Carolina

represents a perfect distillation of the promise and peril of modern American democracy hyperpartisanship gerrymandering dissatisfaction with the two party system the urban rural divide these issues are all brought into sharp relief in the Tar Heel State For that reason North Carolina politics and government are increasingly of interest not just to North Carolina citizens but to journalists political observers and people across the country Political scientist Christopher A Cooper to whom the national media go when they need a quote about North Carolina politics offers a primer made for all people no matter their

political leanings Readers will be introduced to everything that has made North Carolina the most purple of purple states from the state constitution and the influence of think tanks to the growing racial diversity of the state and the limitations on the governor's power By explaining how we came to be in the political situation we are in Cooper shows us where we might go next And as many have said As North Carolina goes so goes the nation *Race and Redistricting* Tinsley E. Yarbrough, 2002 Through much of the 1990s a newly hatched snake wreaked political havoc in the South When North Carolina gained a seat in Congress following the 1990 census it sought to rectify a long standing failure to represent African American voters by creating under federal pressure two majority minority voting districts One of these snakes along Interstate 85 for nearly two hundred miles not much wider than the road itself in some places and was ridiculed by many as one of the least compact legislative districts ever proposed From 1993 to 2001 three intertwined cases went before the Supreme Court that decided how far a state could go in establishing voting districts along racial lines Noted Supreme Court biographer Tinsley Yarbrough examines these closely linked landmark cases to show how the Court addressed the constitutionality of redistricting within the volatile contexts of civil rights and partisan politics A suit was first filed by Duke University law professor Robinson Everett a liberal who loathed discrimination but considered racially motivated redistricting a clear violation of the Fourteenth Amendment's equal protection clause Yarbrough tells how Everett enlisted associates as plaintiffs and went on to win two Supreme Court victories in *Shaw v Reno* 1993 and *Shaw v Hunt* 1996 both by 5-4 decisions Following the creation of another flawed redistricting plan he rounded up a new set of plaintiffs to take the battle back to the Supreme Court But this time in *Easley v Cromartie* on the swing vote of Justice Sandra Day O'Connor the 5-4 vote went against him Yarbrough shows the significant impact these cases have had on election law and the fascinating interplay of law politics and human conflict that the dispute generated Drawing heavily on court records and on interviews with attorneys on both sides of the litigation he relates a complex and intriguing tale about these protracted struggles His cogent and balanced analysis considers whether the state legislature was wrong in using race as a measure for establishing the new district or whether it was simply engaging in the time honored practice of gerrymandering to ensure political balance *Race and Redistricting* spotlights efforts to racially engineer voting districts in an effort to achieve fair representation By examining one state's efforts to confront such dilemmas it helps readers better understand future disputes over race and politics as well as the ongoing debates over our color blind constitution *The Social Diffusion of Ideas and Things* Paul Lopes, Mary Durfee, 1999-11 Since 1889 The American Academy of Political and Social Science has served as a forum for the free exchange of ideas among the well informed and intellectually curious In this era of specialization few scholarly periodicals cover the scope of societies and politics like The ANNALS Each volume is guest edited by outstanding scholars and experts in the topics studied and presents more than 200 pages of timely in depth research on a significant topic of concern <http://ann.sagepub.com> Sociological Abstracts Leo P. Chall, 2001 CSA Sociological Abstracts abstracts and

indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers The Tarheel Banker ,1962 Political Science Quarterly Columbia University. Faculty of Political Science,1999 Offers timely analysis of both domestic and foreign policy issues as well as of political institutions and processes Our State ,1998 The Printers' Circular and Stationers' and Publishers' Gazette ,1886 **State Legislative Sourcebook** ,2005 **Official Register of the United States** ,1874

The American South in a Global World James L. Peacock,Harry L. Watson,Carrie R. Matthews,2005 This volume examines the specific effects of globalizing forces on the southern US Essays address such topics as relations between global and local communities immigration power and confrontation between rural and urban worlds race ethnicity and organizing for social justice and the assimilation of foreign born professionals **The North Carolina Historical Review** ,2011

Checklist of Official North Carolina State Publications ,1998
