Tarnished Icons Stuart M. Kaminsky, 2012-10-16 In the Edgar Award winning crime series featuring a veteran Moscow cop Kaminsky evokes Russian life like a born Muscovite The Philadelphia Inquirer During the widespread corruption of the Yeltsin era violent crime has risen in Moscow by 200 to 300 percent keeping Inspector Porfiry Rostnikov and his team at the Office of Special Investigation busier than ever So it's fortunate that having his bad leg amputated six months ago and replaced by a prosthetic limb has not slowed down the veteran Moscow cop one bit Now he's investigating a hate fueled crime wave as a bloodthirsty gunman wages a campaign to systematically exterminate the city's Jews At the same time a knife wielding rapist is running rampant Despite the urgent demand to end the mayhem the inspector finds himself most intrigued by a centuries old mystery concerning a murdered baroness and a priceless golden wolf statue that has been missing since 1862 Stuart Kaminsky's long running Edgar Award winning series has seen his intensely moral Moscow police inspector through the turbulence of several regimes and always Kaminsky takes care not to rob his beleaguered cops of their human core The New York Times

Owning Up Katherine Adams, 2009-07-29 Owning Up argues that from its beginning the U.S. discourse on privacy has been couched in terms of violation and dispossession so that even as nineteenth century Americans came to regard privacy as a natural right and to identify it with sacred ideals of democratic freedom and individuality they also understood it as under threat or erasure Using biographical and autobiographical writing as her primary archive Adams traces the public narrative of imperiled privacy across five centuries Her analyses begin with the premise that nineteenth century conceptions of privacy became meaningful only in negative relation to the encroaching forces of market capitalism and commodification Where previous studies treat privacy as a stable category whose defining features are middle class domesticity and femininity Owning Up contends that privacy is an empty category that lacks fixed content and requires constant rearticulation via panic narratives in which gender always operates in intersection with race Chapters look at how the discourse of imperiled privacy develops in conjunction with Romantic idealism and antebellum reform racial reconstruction and the ethic of self-right and Social Darwinist laissez faire and culminates at the end of the century in calls for legislation to protect the American individual's right to be let alone

In God's Own Image

Simon Peter Kyambadde, 2005 Integrating modern psychological insights with Christian biblical teaching In God's Own Image is a useful tool to the individual or group seeking personal growth as well as to a counsellor spiritual director or growth facilitator assisting others in that all important journey of human growth it proceeds in three main steps first portraying the ideal of the personality as God meant it to be then the reality of what we are that includes goodness and deformation and finally examining how we can reclaim the ideal both for ourselves and for those we assist whether individually or as groups The material is arranged under three parts Part I describes the ideal What God meant us to be Part II describes the reality what we actually are with both our original beauty and our fallen nature Part III describes what we can become how we can

move towards our original beauty A fundamental attitude to have in the arduous struggle of human growth whether this concerns one's own growth or one's duty in assisting the growth of others involves three convictions 1 Change is difficult A realistic appraisal of this fact does not lead to discouragement On the contrary it leads to perseverance to patience endurance courage and acceptance of occasional failure all factors that accompany genuine growth It helps us avoid the pitfall of looking for quick tangible results 2 Change is important In fact conversion and growth are not just important they are fundamental to a life worth living Striving towards our ideal self is the most important thing in our lives For that reason it is worth spending on it every ounce of strength in us When we are convinced of this then we are motivated to work for it 3 Change is Possible It is possible to improve to be converted and to grow When we have struggled to overcome one difficulty or another for years without visible success we may get into the belief that it is hopeless to think of the possibility of overcoming the difficulties But the good news about each one of us is that however much the beautiful image of God in us has been tarnished and disfigured we have the possibility to have it restored to its original beauty *Comics for Film, Games, and Animation* Tyler Weaver, 2013-05-07
