A Cultural History of Dress and Fashion in the Age of Enlightenment Peter McNeil, 2018-11-01

Eighteenth century fashion was cosmopolitan and varied Whilst the wildly extravagant and colorful elite fashions parodied in contemporary satire had significant influence on wider dress habits more austere garments produced in darker fabrics also reflected the ascendancy of a puritan middle class as well as a more practical approach to dress With the rise of print culture and reading publics fashions were more quickly disseminated and debated than ever and the appetite for fashion periodicals went hand in hand with a preoccupation with the emerging concept of taste Richly illustrated with 100 images and drawing on pictorial textual and object sources A Cultural History of Dress and Fashion in the Age of Enlightenment presents essays on textiles production and distribution the body belief gender and sexuality status ethnicity and visual and literary representations to illustrate the diversity and cultural significance of dress and fashion in the period

Taste in 18th Century France: Critical Reflections on the Origins of Aesthetics, R.G. Saisselin, 1966

The Politics of Sex, Race and Working-Class Slang in Late Second Empire French Caricature Russell Stephens, 2025-08-11 This study examines caricatures as they appeared within popular Parisian magazines in mid 19th century France at the time of the 1867 World's Fair Chapters compare the comic mockery of several of the most important satirists of this time including Am d e de No or Cham 1818 1879 as he was more popularly known and Honor Daumier 1808 1879 A major theme within the analysis is how these caricaturists secretly used argot street slang as documented in two slang dictionaries by Parisian litterateur Alfred Delvau 1825 1867 within their comic images to carry hidden encrypted messages in order to evade the censorship of the day The book focuses primarily on caricatures of Chinese visitors who were part of the 1866 diplomatic visit to Paris and images of Chinese at the 1867 Exposition Universelle showing how the satires which were published by Cham used argot to create highly sexualised images that were often racist in nature In contrast the volume proposes that Daumier used slang in his caricatures to challenge racism and to make secret reference to current political leaders and politics The book will be of interest to scholars working in art history visual culture media studies and communication studies

Music and the French Enlightenment Cynthia Verba, 1993 Around the middle of

the eighteenth century the leading figures of the French Enlightenment engaged in a philosophical debate about the nature of music This book traces the development of the ideas discussed focusing on three different events that occurred roughly simultaneously Rameau's formulation of the principle of the fundamental bass the writing of the Encyclopedie edited by Diderot and d'Alembert with articles on music by Rousseau and the Querelle des Bouffons over Italian comic opera and French tragic opera The philosophes in the typical manner of Enlightenment thinkers were able to move freely from the

broad issues of philosophy and criticism to the more technical questions of music theory considering music as both art and science. Their dialogue was one of extraordinary depth and richness and dealt with some of the most fundamental issues of the French Enlightenment. Verba reconstructs the link between music theory and criticism that has been lost over time, presenting intensive passages from the debate in English translation for the first time.
